Ce document a pour objectif de rendre compte des progrès réalisés par le Conseil dans le domaine de la recherche en matière d'évaluation des incidences sociales au cours des deux dernières années et de proposer des recommandations pour les initiatives ultérieures. Il comporte: un examen des initiatives de recherche en matière d'EIS entreprises entre septembre 1985 et octobre 1987; une synthèse des résultats de recherche; des observations et des conclusions sur la recherche en matière d'EIS compte tenu des méthodes existantes et des orientations future; et, des recommandations pour les recherches ultérieures.

The Traveling salesman problem : a neural network perspective

by J.-Y. Potvin. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. 39 p. : ill. Bibliogr (Publication ; no. 850) (Publication ; no. 836)
MICROLOG 93-01794 1 fiche

This paper surveys neural network models for solving the euclidean travelling salesman problem. The Hopfield-Tank model, the elastic net and the self-organizing maps are introduced, as well as many variants. An extensive bibliography with more than 90 references is also provided at the end of the paper.

The Traveling salesman problem : a neural network perspective -- Rev.

by J.-Y. Potvin. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. 58 p. : ill. Bibliogr. (Publication ; no. 850) (Publication ; no. 836)
MICROLOG 93-05461 1 fiche

This paper surveys the neurally inspired problem-solving approaches to the travelling salesman problem, namely, the Hopfield-Tank network, the elastic net, and the self-organizing map. The latest achievements in the neural network domain are reported and numerical comparisons are provided with the classical solution approaches of operations research. An extensive bibliography with more than one hundred references is also included.

The Traveling salesman problem with backhauls

by M. Gendreau, A. Hertz and G. Laporte. Montreal : Université de Montréal, Centre de recherche sur les transports, 1993. 14 p. Bibliogr. (Publication ; no. 912)
MICROLOG 93-06359 1 fiche

This paper proposes new heuristics for the Travelling Salesman Problem with Backhauls. In this problem the aim is to determine a least cost Hamiltonian tour through a set of linehaul and backhaul customers in such a way that all backhaul customers are visited contiguously after all linehaul customers. For instances in which the cost matrix is symmetric and satisfies the triangle inequality, an heuristic with a worst-cast performance ratio of 3/2 is developed. Four additional heuristics, all having a good empirical performance ratio, are described and compared with a lower bound.

Trawl catch statistics from seven sockeye rearing lakes of the Fraser River drainage basin, 1991

by C.W. Mueller, H.J. Enzenhofer and J.M.B. Hume. Nanaimo, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1992. iv, 40 p. : ill., maps. Bibliogr. (Canadian data report of fisheries and aquatic sciences ; no. 881) *CSI 21105.225.* ISSN 0706-6465
MICROLOG 93-02801 1 fiche

This report gives the results of a 1991 sampling survey using mid-water trawls from seven sockeye rearing lakes (Takla, Trembleur, Stuart, Fraser, Quesnel, Chilko and Cultus) of the Fraser River drainage basin. After at least one month in formalin, each sample was measured and weighed. Summary data was calculated and length frequencies were plotted by survey and species. The results are presented in tables and graphs.

The Treatment of aggressive parents : an outline of a group treatment program

by R.G. Acton and S. During. Ottawa : Health and Welfare Canada, Social Service Programs Branch, Family Violence Prevention Division, National Clearinghouse on Family Violence, 1992 7 p. Bibliogr. *In* Canada's Mental Health : *vol 38, no 2/3, July-September 1990 French ed. (Le Traitement des parents agressifs...) on the same fiche.*
ISBN 0-662-19471-3
MICROLOG 93-03262 1 fiche

This paper reviews the research in the area of physical child abuse and focuses in particular on parental factors in an attempt to understand the psychological processes that explain why some parents become physically aggressive towards their children while others do not. It outlines three areas of concern that contribute to physical aggression within the parent-child relationship: increased physiological arousal associated with poor self-control; low levels in adaptive communication skills and problem-solving skills; and an inability to take the child's perspective, along with misattributions

The Treatment of problem and pathological gambling in New Brunswick : approaches to establishing services

[by] Baseline Market Research Ltd. ; in conjunction with Rachel A. Volberg. Fredericton : Dept. of Finance, 1992. 26 p. Bibliogr. *French ed. (Le Traitement des joueurs...) on the same fiche.*
MICROLOG 93-04423 1 fiche

This document is intended to provide a framework to assist the Government of New Brunswick in planning services for problem and pathological gamblers in the province. It includes a review of the literature on the treatment of problem and pathological gambling, and a synopsis of the organization of mental health and addictions treatment services in New Brunswick. It concludes with recommendations for future efforts in preventing and treating problem and pathological gambling in New Brunswick. The recommendations are based on information developed by gambling researchers in Australia, Europe, New Zealand, and the United States as well as on information provided by professionals in the mental health and alcohol and drug abuse treatment fields in New Brunswick.

Treatment of wastewaters from oil-fired generating stations in eastern Canada

by I. Marvan...et al. Montreal : Canadian Electrical Association, Thermal and Nuclear Power Section, 1991. 16 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06239 1 fiche

A number of wastewater streams resulting from operation of thermal power generating stations are of environmental significance: alkaline or acidic streams, raw water treatment sludges, boiler blowdown containing chemical additives, chemical cleaning wastes, and streams containing oil or grease. Several wastewater treatment plants for oil fired generating stations have been designed and are coming on line in eastern Canada. The fundamentals of wastewater treatment processes to control contaminated discharges are discussed. The relationship between the type of fuel, contaminants to be treated, treatment processes, and their optimum operating conditions are examined. Wastewater contaminants, power plant discharge criteria, air preheater wash effluents, and vanadium oxide chemistry are discussed.

Tree fruit industry : land and water use issues : discussion paper

by G. Runka. Summerland, B.C. : Okanagan Valley Tree Fruit Authority, 1992. 24 p. Bibliogr.
MICROLOG 93-02340 1 fiche

This discussion paper outlines the complex issues associated with the land and water use environment in which the orchardist operates. These issues include competing and compatible land and water uses, amongst them urban uses, transportation and utility corridors, tourism and recreation uses, wildlife habitat, water quantity or quality uses and cross border use considerations. Land tenure and values, including parcel size, land tenure, commercial orchard fragmentation and the cost of land and the impact of speculation are also problems, as are orchard management practices, including environmental uses, the right-to-farm and sustainability and viability.

Trends in agriculture in the Calgary region, 1971-91

Calgary, Alta. : Calgary Regional Planning Commission, 1993. 32 p. : ill. (Prospect ; vol. 2 no. 2)
MICROLOG 93-08178 1 fiche

This report describes changes in certain characteristics of farm land use and population in Alberta and the Calgary Region over the last twenty years. Characteristics of the agricultural sector that are of greatest use in municipal and regional land use planning are chosen for analysis. Following an overview of trends in Alberta, the report focuses on the numbers and sizes of farms in the Calgary Region. Changes in these numbers directly affect the distribution of population in rural municipalities. They relate to the availability and extent of off farm work and provide food for thought. A chapter on farm capitalization is included emphasizing land values as a component of total capitalization. Conversion of farmland to non-agricultural use is discussed in the context of competing land values. The report concludes with comment on the age of farm operators and their need for off-farm work.

Trial sections with polymer-modified asphalts on Highway 400

by P.E. Joseph and G.J. Kennepohl. Toronto : Ministry of Transporation, Research and Development Branch, 1991. iii, 35 p. : ill. Bibliogr.
MICROLOG 93-00707 1 fiche

In July 1990, trial sections were built on Highway 400 near Innisfil to compare the effectiveness of standard and modified HL 1 mixes in resisting rutting and low temperature cracking. In addition to Premium Asphalt from Petro-Canada, the additives used for the trial sections include Novophalt, Neoprene, Vestoplast, and tire rubber (no. 80 mesh) that had not previously been evaluated. The selected test site represents a typical highway section in a colder environment experiencing heavy traffic-induced rutting. The mix design for the trial sections was modified to yield results in two to five years. This report summarizes the experience gained in the construction of the trial sections, the handling of the additives used in each section, the proposed laboratory testings, and the field evaluation techniques for assessing the performance of individual test sections.

Tritium releases from the Pickering Nuclear Generating Station and birth defects and infant mortality in nearby communities, 1971-88

by K.D. Johnson and J. Rouleau. Ottawa : Atomic Energy Control Board, 1991. viii, 94 p. : ill., maps. Bibliogr. (Research report ; INFO-0401) *CSI 22125.203.*
MICROLOG 93-02487 2 fiche

A study by a private citizen in Toronto alleged an association between deaths from congenital anomalies in the Town of Pickering and tritium releases from the Pickering Nuclear Generating Station (NGS). An association between tritium release and neonatal infant death was also described. After an external review by the Ontario Ministry of Health suggested serious data and analytic shortcomings in the study, the Atomic Energy Control Board (AECB) decided it would be in the public interest to have a thorough and independent analysis of the birth defect and infant death data undertaken. This study examined if there were elevated rates of stillbirth, birth defects, or death in the first year of life from 1971-88 among offspring of residents of communities with a 25 km radius of the Pickering NGS and if there were any statistical associations between the monthly airborne or waterborne tritium emissions from the station and the rates of those reproductive outcomes.

Tube failure analysis of PNGS-B unit 5 steam generator 10

by A.M. Brennenstuhl and F. Gonzalez. Toronto : Ontario Hydro, Research Division, 1992. 21 p. : ill. Bibliogr. (Report ; no. 92-24-K)
MICROLOG 93-07965 1 fiche

A leak in boiler 10 at PNGS-B Unit 5 resulted in a forced outage in October 1991. Subsequent eddy current (EC) inspection revealed a leak in steam generator tube, R51C21. The leaking tube and a tube which displayed a 50-60% through wall defect were removed and sent to OHRD for examination. Additionally, deposits from the support plate and the sludge pile regions were obtained. The objective of the analysis was to determine the mode of attack, to verify the eddy current results, and to identify the nature of corrosion products/deposits associated with the defects.

A Two year evaluation of the peer support pilot project, 1990-92

by M. Cheng and R.S. Brown. Toronto : Toronto Board of Education, Library Services Dept., Information Services Division, Research Services, 1992. 54 p. : ill. Bibliogr. (Research report ; no. 201) *CSI 89216.200. ONTERIS: ON06121.* ISSN 0316-8786 ISBN 0-88881-202-5
MICROLOG 93-02922 1 fiche

Peer support was instituted to help beginning teachers in their first year. An experienced teacher or mentor worked day-to-day with a novice teacher; as well, they were given up to five days release time during the year for professional dialogue and sharing. Data was collected from new teachers (in project and comparison groups), from experienced, participating teachers, and from principals, using journals, questionnaires, and focus groups. Demographic data is presented, as well as written and graphical results.

La Typologie des écoles de langue française

par J. Stern. Toronto : TVOntario, Planification

et recherche en développement, 1990. vi, 65 p. (Document de travail ; 90-10)
ONTERIS: ON05783
MICROLOG 93-00325 1 fiche (Available on fiche only)

Composé de 5 analyses statistiques sur la situation scolaire, en Ontario francophone, ce rapport a pour but d'orienter le travail de divers services de TVOntario. De l'analyse des inscriptions dans les écoles françaises de l'Ontario, en septembre 1988, ressort qu'on retrouve des élèves dans 363 écoles de langue française (écoles séparées, publiques, unilingues ou mixtes), qui sont rattachées à 73 conseils scolaires homogènes ou mixtes. Le rapport offre la présentation des facteurs démographiques, administratifs et législatifs, touchant à l'éducation en français, en Ontario et sert de base à la planification continue de divers secteurs de TVOntario qui offrent des services et une programmation, destinés à la communauté franco-ontarienne.

Understanding old-growth red and white pine dominated forests in Ontario

by T.J. Carleton and A.M. Gordon. Toronto : Ministry of Natural Resources, Ontario Forest Research Institute, 1992. vi, 81 p. : ill. Bibliogr. (Forest fragmentation and biodiversity project technical report ; 2) *Appendices (217 p.) laid in.* ISBN 0-7778-0393-3
MICROLOG 93-07343 4 fiche

In summer 1991, a variety of forest stands dominated by old specimens of white pine and red pine were sampled across a representative portion of the species' range in northcentral Ontario. Plots were established in 40 stands of those surveyed to identify the salient structural components of old-growth, to survey the floristic composition (vascular plants and autotrophic non- vascular plants), to survey site characteristics, and to estimate the links in understorey alpha diversity with site conditions and stand structure. Long-term objectives include a definition of old- growth pine forest, recognition criteria, and prospective management options. Forest stand structure was enumerated through mapping, mensurational, and age estimation techniques. Forest vegetation, including over and understorey species, was non- destructively sampled and a range of data on stand and soil-site variables was also collected in conjunction with information on stand variables peculiar to old growth forests.

Understanding uncertainty in cost-benefit analysis and impact assessment

by C. Riek. Hull, Que. : Canadian Environmental Assessment Research Council, 1986. 126 p. Bibliogr. (Manuscript report ; MR12-86)
MICROLOG 93-05360 2 fiche

This paper identifies and describes the types of uncertainty in cost-benefit analysis and demonstrates how different versions of a cost-benefit analysis can exist for the same project, with each version having some claim to validity. It traces the development of public-sector evaluation from the development of cost-benefit analysis in the 1930s to the introduction of environmental impact assessment in the 1970s, describing the similarities and differences between the two concepts, and identifies the sources of uncertainty in problem formulation, the definition of objectives, the generation of alternatives, and the identification of consequences. It then looks more closely at the literature to determine how analyses might differ through the application of different evaluation techniques, and also discusses the value judgements implicit. An actual impact assessment process (the review of the Site C hydroelectric project in British Columbia) is described to illustrate the presence of conceptual, ethical, factual, predictive, and evaluative uncertainty in a real situation.

Understorey vegetation response to three silvicultural treatments in the white pine working group

by B. Chambers. Huntsville, Ont. : Ministry of Natural Resources, Central Ontario Forest Technology Development Unit, 1991. vii, 52 p. : ill. Bibliogr. (Technical report ; no. 15)
MICROLOG 93-07122 1 fiche

One hundred thirty temporary chronosequence plots were established on a limited vegetation-site condition to compare vegetation response to treatment scenarios involving cut and leave (over seven years after treatment), cut with mechanical site preparation, and cut with mechanical and chemical site preparation (each over four years after treatment). The project also included the assessment of density and height development of white pine regeneration, seedling-seedbed relationships, and the production of current annual growth of woody browse for a winter food supply for white-tailed deer and moose. In addition, 65 permanent sample plots used in the development of the pine FEC were measured prior to and after harvest. Up to four years of post-harvest quantitative vegetation data was collected on these sites, the results of which are presented in the report

Unfinished business : reforming trade remedy laws in North America

by T.M. Boddez and M.J. Trebilcock. Toronto : C.D. Howe Institute, 1993. ix, 292 p. Bibliogr. (Policy study ; no. 17) ISSN 0832-7912 ISBN 0-88806-311-3
MICROLOG 93-03941 4 fiche

This document examines trade remedy laws in the bilateral context, describes and evaluates the performance of the new bilateral panel review process to date, and reviews and advances both substantive and procedural reform options for the future. In developing these options, the authors draw on developments in the current Uruguay Round of negotiations under GATT and NAFTA. The authors argue that both the framing of the laws and their case-by-case application reflect a political desire to meet the demands for protectionism by affected domestic producer interests, rather than any coherent economic or other normative rationale that might be invoked to justify them.

An Update on dense phase ash systems

by D.L. Price and A.R. Quinton. Montreal : Canadian Electrical Association, Thermal and Nuclear Section, 1992. 12 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06236 1 fiche

The ABB Flakt Depac dense phase pneumatic ash conveying system was developed in the 1960s for the conveying of oil soot from electrostatic precipitators and mechanical collectors to storage sites at European generating stations. The off-oil program in the early seventies prompted the first pilot program on coal fly ash to overcome the problems associated with dilute conveying and despite early setbacks the Depac system has established itself as a world leader in the conveying of coal fly ash. A brief history is presented of the development of dense phase ash conveying and the benefits of dense phase over dilute phase systems are discussed. Flakt's ongoing reliability and maintainability program to improve the system performance is reviewed and the limitations of dense phase conveying are examined.

Upper rear steam drum replacement at Wisconsin Electric Power Company's Port Washington Station, units 2, 3, and 4

by D.C. Lavoie...et al. Montreal : Canadian Electrical Association, 1992. 15 p. : ill. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06228 1 fiche

As the average age of operating utility steam generators increases, more and more steam drums and major headers will experience bore hole ligament cracking. This may be due in part to thermal fatigue and cycling operation, as well as normal aging of the steam generating equipment. Methodology for assessing the severity of steam drum cracks has been in place for several years. Part of the assessment process is the inspection and mapping/replication of cracks. This phase is essential to the analytical evaluation of the drum shell. Repair or replacement recommendations/decisions result from these evaluations. Problems associated with the physical replacement of a steam drum represent the final hurdles and must be addressed separately to accomodate the physical differences at each unit. Management of the safety, economic and scheduling issues related to multiple unit facilities also presents significant challenges. A project employing engineering and construction innovations to solve the many challenges of steam drum replacement on adjacent units is described.

Uprating and refurbishing of transmission lines

by H.B. White and M.S. Nashid. Montreal : Canadian Electrical Association, Transmission Section, 1992. 10 p. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06257 1 fiche

Uprating or refurbishment of old transmission lines has become a subject of growing interest among utilities experiencing difficulties in building new transmission lines on new corridors. An overview is presented of the uprating or refurbishment process, with specific attention paid to the capability or physical demands that should be required of a refurbished line, and whether there is a justification for accepting a lower theoretical limit of reliability on a refurbished or uprated line than the design objective of the original line. An example is presented of the uprating of an existing line, and generalized new reliability expectations or criteria, detailed site specific adjustments, and failure records of the line under study are discussed.

Uranium and thorium deposits of northern Ontario

by J.A. Robertson. Toronto : Dept. of Mines, 1968. x, 106 p. (Mineral resources circular , no. 9)
MICROLOG 93-01832 2 fiche

This mineral inventory briefly describes the deposits of uranium and/or thorium in northern Ontario north and west of the Grenville Front, along with the pitchblende occurrences of the Theano Point-Montreal River area. The inventory also includes various pegmatitic and vein deposits scattered throughout northern Ontario. Uranium occurrences are listed alphabetically under district, township and company names, with a general index also included. Low-grade uranium deposits that are reported to contain less than 0.02 percent uranium oxide are listed under miscellaneous occurrences, as are those on which there is little information. Data for the inventory was collected in 1967. Information for each deposit includes district, township, company involved, location, development, geology, dimensions and grade, and references.

Urban environmental policy options

Toronto : Canadian Urban Institute, 1991. 35 p. Bibliogr. (Working paper ; WP-2)
MICROLOG 93-00602 1 fiche

This paper begins with a generic range of potential policy positions within which specific policy positions would likely fit. It then reviews environmental issues as they relate to waste management, sewer and water, and air. Each section begins with a short general problem summary and is followed by specific issues, after each of which are presented policy positions in the form of recommendations. The major environmental issue areas sections are followed by a brief discussion of guiding principles, and municipal environmental policy statements and environmental audits.

Urban expansion and the mineral industries in the Toronto-Hamilton area

by D.F. Hewitt. Toronto : Dept. of Mines, 1962. iv, 11 p. : maps. Bibliogr. (Industrial mineral report ; no. 8)
MICROLOG 93-02368 1 fiche

The rapid growth of municipalities in the Toronto-Hamilton area has created a need for planned development of land-use in the areas of urban expansion, including materials for use in the construction industry. This report provides an overview of the use of minerals in the economy, the use of mineral resources and the purpose of zoning regulations. It then presents in detail the resources of the Toronto-Hamilton area for sand and gravel, crushed stone, brick and tile, sewer pipe, building stone, Portland cement, gypsum and lime.

Urban form : bringing the vision into focus : report

Provincial-Municipal Urban Form Working Group (Ont.). Toronto : The Working Group, 1993. 33 p. : ill.
MICROLOG 93-07852 1 fiche

The mandate of the Urban Form Working Group included defining and elaborating upon what is meant by 'urban structure', 'compact urban form', 'nodes and corridors' in the GTA context; identifying impediments to achieving the desired objectives of compact urban form; illustrating how compact urban forms of development can reflect the values of social equity, economic enhancement and a healthy environment; and finally, what needs to be done at the local, regional and provincial levels to achieve a more compact form. This report has attempted to further define compact urban form in a conceptual way, within the values and principles of the GTA vision statement, as a basis for the next stage of the ongoing assessment of the GTA's future.

Urban transit guides application of advanced train control

by S. Vespa and T. Parkinson. Montreal : Transport Canada, Policy and Coordination, Transportation Development Centre, 1992. xv, 19 p. Bibliogr.
MICROLOG 93-03719 1 fiche

North American railway authorities are concerned about the introduction of processor-based equipment into vital or fail-safe functions. This situation has already been faced in the railway industry abroad, where such controls are steadily being introduced, particularly for intersection interlocking and control. This paper deals primarily with safety issues for software-based control and communications, giving a review of current practice and providing advice on elements of particular concern. The concept of relative safety is introduced and the evolution of safety practices through automation is examined in both the railway and mass transit industries. A system safety process and an approach based on a safety assurance plan are presented, addressing data communications, software development, testing, and verification.

ISBN 0-662-97477-8
MICROLOG 93-05652 5 fiche

Ce rapport est le cinquième d'une série décrivant les résultats de l'Enquête nationale sur l'alcool et les autres drogues au Canada (1989). Il traite de l'usage d'alcool et d'autres drogues par les Canadiens âgés de 15 ans et plus, du comportement de ces derniers et des conséquences de leur habitude. L'enquête a été réalisée par Statistique Canada pour le compte de Santé et Bien-être social Canada en mars 1989. L'enquête permet d'évaluer à partir de données fiables la nature des problèmes que l'alcool et les autres drogues causent au Canada. Ce rapport a pour objets d'éclairer l'élaboration de politiques et de programmes dans tout le Canada, de stimuler le dialogue et la discussion entre les professionnels concernés, de préparer les recherches futures et, surtout, de fournir de l'information pour prendre des décisions réfléchies sur l'usage d'alcool et d'autres drogues.

The Use of a biomonitoring system in acquiring baseline water quality data for a metal mining operation in northeastern New Brunswick

by T.A. Smith. Hull, Que. : Canadian Environmental Assessment Research Council, 1989. 35 p. : ill., maps. Bibliogr. (Manuscript report ; MR10-89)
MICROLOG 93-05337 1 fiche

A study was undertaken during the summer of 1988 to determine the usefulness of a simple, cost-effective biomonitoring system for acquiring baseline water quality data for the receiving waters of a reopening base metal mining and milling operation in northeastern New Brunswick. The freshwater bivalves *Margaritifera margaritifera* and *Elliptio complanata*, and the leech *Nephelopsis obscura* were used as biomonitoring tools for exposure periods from between 5-70 days at several locations downstream of the mine site. In addition to the application of freshwater molluscs and leeches as biomonitoring agents, epilithic algal samples collected at three locations downstream of the mine were tested. Caged fingerling brook trout were also deployed and observed over a 10-day period to delineate a zone of acute toxicity.

Over the past 20 years Ontario Hydro has relied on selective herbicide applications to remove incompatible trees from its transmission and distribution rights-of-way but the success of the technique is dependent upon the occurrence of species in the area that are able to successfully interfere with tree establishment and/or growth. If such species are not present or do not flourish, no effective biological control can develop. An alternative method is to replace the existing vegetation with species that have a demonstrated ability to interfere with tree establishment. A distribution line in the Tobermory area of the Bruce Peninsula became available for an experimental cover crop planting. The line was cleared of incompatible species during fall and winter of 1988 and a random block experimental design was used to test six treatments of six sites along the right-of-way, using soil scarification and creeping red fescue or juno orchard grass or birdsfoot trefoil or a mixture of pennygift crown vetch and perennial ryegrass, compared to no seeding at all or no soil scarification and no seeding. In 1991, slow release fertilizer was added to a subplot in each treatment, and green ash, sugar maple, and hybrid poplar were planted to directly measure the interference potential of crops.

The Use of cyclic voltammetry and SEM/EDX techniques to characterize the behaviour of copper anodes containing various impurities during electrorefining

by E.A. Kucharska-Giziewicz and D.J. MacKinnon. Ottawa : Canada Centre for Mineral and Energy Technology, Mineral Sciences Laboratories, 1992. i, 54 p. : ill. Bibliogr. (Report ; MSL 92-47(TR))
MICROLOG 93-00500 1 fiche

A reproducible technique using cyclic voltammetry was developed to characterize the behaviour of impurity-containing copper anodes during electrorefining. The method involves cycling the anode potential at a rate of 2 mV/s between the open circuit potential of -0.35 V and 0.0 V vs the mercury-mercurous sulphate reference electrode. Scanning electron microscopy with an energy dispersive X-ray analysis system was used to examine the corroded surfaces of the anodes.

The Use of rainwater for domestic purposes in Nova Scotia

significant editorial and technical contributions were made by D.H. Waller and R. Scott. Halifax : Dept. of Health, Division of Health Engineering, 1992. 9 p.
MICROLOG 93-08311 1 fiche

In many rural communities in Nova Scotia, adequate groundwater or treated piped-in supplies of potable water are not available. The collection of rainwater from the roofs of buildings may be the only or best alternative to supply household demands. This is especially true in areas where dug wells have an insufficient yield and drilled wells contain elevated levels of contaminants such as arsenic, sulfates or chlorides. These guidelines are intended to aid in the design of rainwater cistern systems to provide water supplies of adequate quality and quantity and to make this technology available to potential users of cistern systems in Nova Scotia.

The Use of sucrose to remove glycerol from bovine embryos in a single-step after thawing : final report

by R. Mapletoft. Regina : Saskatchewan Agriculture Development Fund, 1992. 15 p. : ill
MICROLOG 93-06786 1 fiche

A series of experiments were designed to investigate the feasibility and to improve the effectivenes of one-step straw in bovine embryo transfer. The one-step straw provides for direct transfer of embryos to recipients in much the same fashion as artificial insemination, without the necessity of costly equipment, highly trained personnel, sophisticated facilities and time. The technique is based on the principle that a substance like sucrose does not cross cell membranes so when an embryo frozen in glycol is exposed to a sucrose solution the glycol moves down a concentration gradient out of the embryo. Critical components of the process such as dilution factors, methods of loading straws and feasibility in commercial embryo transfer were assessed.

Utilisation des ressources humaines dans le secteur hospitalier au Québec, 1979-80 à 1984-85

par M. Beaupré et P. Boucher. Québec : Gouvernement du Québec, Ministère de la santé et des services sociaux, Direction générale de la planification et de l'évaluation, 1986. 69 p. : ill. Bibliogr. (Etudes et analyses ; 25) ISBN 2-550-17321-X
MICROLOG 93-08946 1 fiche

Ce rapport décrit l'utilisation des ressources humaines dans le secteur hospitalier au Québec de 1979-1980 à 1984-1985. L'objectif principal de ce rapport consiste à quantifier l'évolution de deux phénomènes importants reliés aux ressources humaines du secteur hospitalier québécois. La première partie du travail analyse l'évolution de la main-d'oeuvre du secteur hospitalier. Les indicateurs utilisés dans cette partie sont les heures rémunérées de l'ensemble du personnel ainsi que la répartition du personnel régulier à temps partiel. La seconde partie analyse l'évolution de quelques indicateurs reliés à la productivité du personnel. Les indicateurs utilisés dans cette partie de l'étude sont. le nombre d'heures rémunérées par journée d'hospitalisation, le nombre d'heures rémunérées par visite, et le nombre d'heures rémunérées par admission.

Utilization of an electronic circuit simulator in CMOS latch-up studies

by L. Varga. Ottawa : Defence Research Establishment Ottawa, 1992 vii, 40 p. : ill. Bibliogr. (Report ; no. 1144)
MICROLOG 93-03023 1 fiche

Radiation effects on the performance of electronic devices and circuits are becoming increasingly more important as the devices are being scaled down and new technologies are being introduced. A specific type of circuit whose functionality is vulnerable to radiation effects are the CMOS VLSI (Very Large Scale Integration) circuits. In the radiation environment, these systems can enter into a state of self-sustaining low impedance (latch-up) during which large current flow takes place through the substrate of the circuit. This report describes the application of an electronic circuit simulator, the HSPICE code, to carry out equilibrium finite element analysis of potential, current and current carrier distribution in CMOS circuits prior to and during latch-up. The model consists of the diffusion current module and the lumped-element module, with additional model features also included to enable the initiation of the transistor action and the ability of the circuit to latch-up. The model was subjected to common CMOS circuit radiation hardening techniques.

Utilization of stiff backfill in alleviation of rockbursts, part 2A : laboratory scale dilatometer testing of cemented rockfill

by B. Arjang and K. Stevens. Ottawa : Canada Centre for Mineral and Energy Technology, Mining Research Laboratories, 1992. iii, 11 p. : ill. Bibliogr. (Report ; MRL 92-096(TR))
MICROLOG 93-03424 1 fiche

This project was conducted to demonstrate that stiff backfill reduces the severity, damage and number of rockbursts in narrow steeply dipping orebodies. The initial research concentrated on the cemented rockfill (CRF) at Macassa Mine of Lac Minerals Ltd., Kirkland Lake, Ontario, a deep hardrock mine with narrow orebodies. In the first phase of the field studies, pre-mining ground stresses were determined at selected mine sites and the first phase of large scale laboratory testing on CRF was completed. As part of the project, a stiff borehole dilatometer probe was tested on a laboratory scale to investigate the reliability and sensitivity of the probe in determining CRF stiffness. This report describes the results of dilatometer testing.

Utilizing shelve slots : sufficiency conditions for some easy instances of hard problems

by M. Dror...et al. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. 20 p. Bibliogr. (Publication ; no. 833)
MICROLOG 93-01787 1 fiche

It has often been noted in industrial practice that whenever the total length (the number of slots required by components of the network element) equals an integer multiple of a shelf length and each component length is a divisor of the shelf length, then it is conjectured that the shelves can be fully utilized. This paper establishes a more precise condition of the relationship between the component's length and the shelf length that assures such an outcome.

Vacuum pyrolysis of bark residues and clarifier sludges : phase I

Pyrovac Institute Inc. Ottawa : Energy, Mines and Resources Canada, Efficiency and Alternative Energy Technology Branch, 1991. x, 25 p. : ill. *CANMET contract: 23440-09530-01-SZ.* ISBN 0-662-19706-2
MICROLOG 93-00492 1 fiche

Disposal of bark residues and clarifier sludges produced by the pulp and paper sector has become one of the important and urgent problems faced by the industry in Canada. Vacuum pyrolysis is a technology that has been under development in Canada since the early 1980s. The process enables the thermal decomposition of organic wastes to pyrolyse oils and charcoal and has been successfully used with biomass feedstocks such as wood and used tires. This study used bark residues and clarifier sludge samples from the Daishowa pulp and paper plant in Quebec City in a laboratory scale reactor system using vacuum pyrolysis to explore the possibility of converting them into useful products. The bark residues were mainly from black spruce and contained inorganic matter such as sand, stones, and metal, and organic substances such as plastics. Clarifier sludges provided were the lignocellulosic wastes rejected from the entire plant operations, after the debarking stage.

Vais, vas, m'as in Canadian French : a sociohistorical study

by R. Mougeon and E. Beniak. Toronto : Ontario Institute for Studies in Education, Centre de recherches en éducation franco-ontarienne, 1987. 24 p. Bibliogr. *ONTERIS: ON04772.*
MICROLOG 93-00625 1 fiche (Available on fiche only)

The history of a verbal morphology variation in contemporary Canadian French. Socio-historical explanations are given for the differential diachronic evolution of Canadian and European French with respect to the alternate forms of the verbs 'aller' (go) and 's'en aller' (go, leave) in the 1st person singular, indicative present forms. It is concluded that colonial varieties of French constitute an important element in the socio-linguistic history of spoken French language, given their high degree of conservatism.

Validation of a method for resin and fatty acids : ampouled standards in two different solvents for direct methylation and instrumental injection

Ontario. Ministry of the Environment. Laboratory Services Branch. Toronto : Environment Ontario, 1990. 17 p. Bibliogr. (Interlaboratory study ; 88-2B) ISBN 0-7729-6750-4
MICROLOG 93-01912 1 fiche

This was the second study to validate the performance of the method for resin and fatty acids. Ampoules were distributed in August 1988. Four laboratories received two ampouled standards for direct methylation and instrumental injection. Each ampouled standard consisted of three parameters, one standard prepared in methanol and one standard prepared in methyl-t-butyl ether (MTBE). A third ampouled standard, consisting of the same three parameters dissolved in MTBE, but pre-methylated prior to sealing in the ampoules, was also provided to each laboratory. The third standard was to be used to verify that the four laboratories agreed in their calibration. This report gives the results of the tests.

MICROLOG 93-07901 1 fiche

Comprehensive study of major field and horticultural crops grown in Ontario. It was designed to determine costs and returns of various farm enterprises, as well as the physical amounts of production inputs required. Input information was obtained through the use of recent Branch studies, plus consultation with producers, extension, research and agribusiness personnel. For each crop cost estimate, data was organized into variable and fixed costs and totalled to arrive at the cost of production on a per acre basis. Includes information on labour hours and costs, land charges, tractors, machines and trucks, custom farmwork services, interest on operating capital, other overhead, other cost considerations, yields and returns, and gross margin analysis. Vegetables are divided into the categories of those for fresh market and those for processing. Summary data for the last five years is included.

Vegetation and seedling development following site preparation in the ESSFwm subzone of Glenole Creek, Nelson Forest Region, British Columbia : a case study

by E.T. Oswald and B.N. Brown. Victoria : Canada-British Columbia Partnership Agreement of Forest Resource Development FRDA II, 1992. vi, 34 p. : ill. Bibliogr. (FRDA report ; 188) ISSN 0835-0752 ISBN 0-7726-1665-5
MICROLOG 93-07326 1 fiche

A study of the response of vegetation and planted Engelmann spruce seedlings to operational site preparation procedures for reforestation was begun in 1986 in the Glenogle Creek Watershed of southeast British Columbia. The site preparation techniques tested consisted of brush blade with contour and across contour; FMC blade with contour on gentle to moderately steep terrain; FMC dip and dive on steep slopes; and prescribed burning on moderately steep slopes. Untreated plots were located in the undisturbed areas between scarified strips. Scarification was conducted in brush land rated not satisfactorily restocked and slashburning was performed following more recent logging. The study was conducted on a northeast-facing slope in the Engelmann spruce-subalpine fir biogeoclimatic subzone. This report presents data on vegetation development and Engelmann spruce growth during the five years following planting.

The Vehicle routing problem with stochastic customers and demands

by M. Gendreau, G. Laporte and R. Séguin. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 30 p. Bibliogr. (Publication ; no. 873)
MICROLOG 93-05458 1 fiche

This paper considers a stochastic vehicle routing problem in which each customer has a known probability of presence and a random demand. In a first stage, planned collection routes are designed. In a second stage, when the set of present customers is known, these routes are followed as planned by skipping the absent customers. Whenever the vehicle capacity is attained or exceeded, the vehicle returns to the depot and resumes its collections along the planned route. This generates a penalty. The problem is to design a first stage solution to minimize the expected total cost of the second stage solution. This is formulated as a stochastic integer program, and solved to optimality by means of an integer L- shaped method. Computational results are reported.

Vehicle routing with stochastic demands and restricted failures -- Rev.

by M. Dror, G. Laporte and F.V. Louveaux. Montreal : Université de Montréal, Centre de recherche sur les transports, 1992. ii, 19 p. Bibliogr. (Publication ; no. 773)
MICROLOG 93-01756 1 fiche

This paper considers a class of stochastic vehicle routing problems (SVRPs) with random demands, in which the number of potential failures per route is restricted either by the data or the problem constraints. The paper first considers a chance constrained version of the problem that can be solved to optimality by algorithms similar to those developed for the deterministic vehicle routing problem (VRP). Three classes of SVRP with recourse are then analyzed. In all cases, route failure can only occur at one of the customers of the planned route.

Verification of CSA Code for fixed offshore concrete structures

by N. Allyn, W.J. Cichanski and P. Adebar. Ottawa : Environmental Studies Research Funds, 1992. iii, 62 p. : ill. (Environmental Studies Research Funds report ; no. 112) ISBN 0-921652-09-7
MICROLOG 93-03050 1 fiche

This study applied the provisions of Part I of CSA standard S471-M1989 and Part IV of S474-M1989 for the design, construction and installation of fixed offshore structures to the design of the reinforcing steel in the ice wall and immediately supporting walls of the Hibernia GBS 1986 Update design. A second design was developed using the Norwegian codes of NPD Regulations and Norwegian Standard 3473. This report describes the enhancement to program SHELL474; the Hibernia GBS structure; the design criteria; the design for ice wall, tie wall, and support wall, fatigue and ductility checks; and an appraisal of the CSA code.

Verification of CSA Code for fixed offshore steel structures

by B. Maddock, G. Khng and M. Gerin. Ottawa : Environmental Studies Research Funds, 1992. x, 162 p. : ill. Bibliogr. (Environmental Studies Research Funds report ; no. 111) ISBN 0-921652-07-0
MICROLOG 93-03470 2 fiche

This project evaluated the Canadian Standards Association Code for the Design, Construction, and Installation of Fixed Offshore Structures in its application to the design of an actual steel jacket structure. The evaluation compared the results of a design based on the CSA standards to British Petroleum's GYDA platform, applying the design criteria and environmental conditions used in the original design and focusing on the jacket structure and the pile foundations only.

MICROLOG 93-03726 2 fiche

Cette étude comporte une description des objets de verre représentatifs de 25 sites archéologiques où des fouilles ont été effectuées de 1962 à 1974 par la Direction des lieux et des parcs historiques nationaux, Parcs Canada. Les objets sont choisis pour illustrer les articles typiques des sites fouillés ou l'histoire de la fabrication du verre et des styles de la période. L'objectif de ce rapport est double: élaguer et compléter l'histoire générale de la verrerie pour répondre aux besoins particuliers des archéologues des sites historiques canadiens, et formuler des hypothèses sur le commerce de la verrerie de table et son utilisation au Canada de 1700 à 1850.

La Verrerie de table de Coteau-du-Lac (Québec)

par P. McNally. Ottawa : Environnement Canada, Parcs Canada, Direction des lieux et des parcs historiques nationaux, 1979. 160 p. : ill. Bibliogr. (Histoire et archéologie ; 15) *Publié avec: Le Métier de soldat à Coteau-du-Lac (Québec), 1780 à 1856 -- Perles de verre provenant du fort de Coteau-du-Lac (Québec) -- Pièces de monnaie retrouvées au fort de Coteau-du-Lac (Québec).* ISSN 0227-3551 ISBN 0-660-90211-7
MICROLOG 93-03439 2 fiche

La verrerie de table découverte au fort de Coteau-du-Lac (Québec) lors des fouilles archéologiques démontrent assez bien les méthodes de fabrication anglo-irlandaise en usage entre 1780 et 1825 et probablement même un peu plus tard. Les fouilles ont permis également de découvrir certains articles de verrerie moulée au souffle ou pressée d'avant le début de l'ère industrielle des années 1820. Les échantillons permettent d'établir que le fort connut une activité plus intense au début de son existence et que les occupants avaient des goûts très conservateurs en verrerie de table. Ce document examine la verrerie de table découverte dans cette région et se penche également sur la verrerie à l'époque de l'occupation de Coteau-du-Lac.

Vibration tests on the OHRD-NPCTF Bruce B fuel channel

by J.M. Boyd. Toronto : Ontario Hydro, Research Division, 1992. viii, 60 p. : ill. (Report ; no. 92-114-K)
MICROLOG 93-02890 1 fiche

The tests on the NPCTF fuel channel described in this report were part of an investigation designed to enhance understanding of factors associated with the fuel damage problem at DNGS. The test program for the NPCTF channel and other channels at SPEL, Stern Laboratories and GE was coordinated by AECL. A vibration generator was used to excite the channel components at frequencies up to 250 Hz under a variety of flow conditions. The resulting responses were measured with vibration transducers located at appropriate points both outside and inside the channel. The test setup did not include means for producing variable frequency pulsed flow or water temperatures above 60C.

La Violence au grand jour : les femmes autochtones rompent le silence

Ottawa : Conseil canadien de développement social ; Association des femmes autochtones du Canada, 1991. 33 p. *L'éd. anglaise (Voices of Aboriginal women...) sur la même fiche.* ISBN 0-88810-403-0
MICROLOG 93-00240 1 fiche (Available on fiche only)

Ce document se penche sur la violence faite aux femmes autochtones. Il est divisé en quatre parties. L'introduction offre un aperçu de ce que vivent et ressentent les femmes et les sociétés autochtones qui sont victimes de violence ou d'abus. La deuxième partie présente les témoignages de cinq femmes qui ont réchappé à la violence qu'elles ont vécue. Une entrevue avec Liza, une aînée qui est conseillère en désintoxication de drogues et d'alcool, est relatée dans la troisième partie. La quatrième et dernière partie décrit les nouvelles orientations et les actions qui sont menées pour aider les victimes de la violence familiale et leurs agresseurs.

Violence conjugale et familiale : intervention auprès des conjoints violents, orientations

Québec : Gouvernement du Québec, Ministère de la santé et des services sociaux, 1992. 23 p. Bibliogr. ISBN 2-550-22839-1
MICROLOG 93-07565 1 fiche

La violence conjugale est encore malheureusement trop présente dans notre quotidien. C'est dans ce contexte que les auteurs de ce document présentent les orientations du ministère de la Santé et des Services sociaux en matière d'intervention auprès des conjoints violents. Ce document précise de façon succincte les principes, les lignes directrices et les mesures retenues au cours des prochaines années dans ce secteur. Il comprend trois parties principales. La première précise les objectifs de la présente démarche d'orientations. La seconde dresse sommairement un état de situation de la problématique et des services offerts. La troisième partie présente les orientations en définissant les principes et les grandes lignes directrices; puis, pour concrétiser ces orientations, elle propose des mesures pour favoriser l'émergence de liens plus soutenus entre les diverses ressources.

Violence familiale : document sur la situation

Ottawa : Santé et bien-être social Canada, Direction générale des programmes de service social, Division de la prévention de la violence familiale, 1992. 6, 6 p. *Bilingue (Family violence : situation paper).* ISBN 0-662-58162-8
MICROLOG 93-03265 1 fiche

La violence familiale représente un abus de pouvoir dans les rapports de confiance et de dépendance qui existent entre membres d'une même famille. Elle mine les droits fondamentaux des personnes en s'attaquant de préférence aux individus qui, en raison de leur sexe, de leur âge, de leur handicap ou de leur dépendance, sont les plus exposés aux mauvais traitements. Ce document porte sur la perspective historique de la violence familiale, le rôle du gouvernement fédéral pour lutter contre le problème, l'importance du partenariat, les facettes du problème et des réponses, et l'avenir.
BS CA SA

Violence familiale : documentation

Ottawa : Gouvernement du Canada, 1991. 9, 9 p. *Bilingue (Family violence : backgrounders).*
MICROLOG 93-03266 1 fiche

La violence familiale est habituellement liée à un déséquilibre du pouvoir entre les sexes: les femmes en sont les principales victimes. Ce bulletin examine la violence familiale et se penche surtout sur l'enfance maltraitée; la violence familiale et les femmes; les mauvais traitements à l'égard des aînés; la violence familiale subie par les personnes handicapées; les projets de prévention de la violence en milieu familial autochtone; et, les maisons d'hébergement d'urgence pour victimes de violence familiale.
BS CA SA

La Violence familiale à l'égard des femmes handicapées

Ottawa : Santé et Bien-être social Canada, Centre national d'information sur la violence

dans la famille, 1993. 9 p. *L'éd. anglaise (Family violence against women...) sur la même fiche.* ISBN 0-662-98108-1
MICROLOG 93-06128 1 fiche

La violence familiale, dans le présente context, se rapport aux mauvais traitements d'ordre physique, psychologique ou sexuel, aux abus ou à la négligence que subit une femme handicapée de la part d'une personne de sa parenté ou d'un(e) dispensateur(trice) de soins. C'est un abus de confiance et un abus de pouvoir dans une relation où une femme devrait avoir un droit de sécurité absolue. Il examine précisément les points suivants: la violence à l'égard des femmes, pourquoi les femmes ayant des handicaps sont-elles particulièrement vulnérables à la violence familiale, la prévalence des cas de mauvais traitements, les difficultés pour obtenir de l'aide, formes de violence, l'auteur des mauvais traitements, et comment nous pouvons travailler à l'élimination des mauvais traitements.

Violence in a domestic context : a discussion paper

Halifax : Law Reform Commission of Nova Scotia, 1993. 36 p.
MICROLOG 93-05020 1 fiche

It is conservatively estimated that at least one in ten Canadian women are assaulted by their spouses. This document examines the way in which the legal system in Nova Scotia responds to this form of violence which occurs between people drawn from every segment of society. It contains a number of proposed suggestions as to how the law and legal system in the province can be reformed to better respond to spousal assault. The paper is designed to promote discussion and public participation in the work of the Commission.

A Vision for the countryside : report

Provincial-Municipal Countryside Working Group (Ont.). Toronto : The Working Group, 1993 ii, 53 p. : ill. Bibliogr.
MICROLOG 93-07851 1 fiche

The Working Group was asked to examine issues in the countryside such as: identify greenlands and formulate a strategy for their protection; formulate a strategy for establishing a trail system; and recommend principles which should apply to the range of uses in the countryside ensuring their character and viability. The strategies and recommendations in this report represent a new approach to planning for the countryside. The emphasis is on protecting and enhancing the characteristics and values of the countryside which are not only intrinsically important but which are also critical to the diversity and quality of life in the GTA.

Vision of life in a sustainable 21st century Canadian city

Ottawa : Canada Mortgage and Housing Corporation, Centre for Future Studies in Housing and Living Environments, 1993. xiv, 200 p. Bibliogr. *French ed. (Vision de la vie dans...) : 93-08697/3.*
MICROLOG 93-08730 3 fiche

Public awareness of the impact of human activities on the environment has increased over the past twenty years. However, when one looks at how people translate this concern into concrete actions, the results are disappointing. It is within this broad context that the Centre for Future Studies spearheaded a consultation process to examine the issues and possible characteristics of sustainable urban areas in a Canadian context. These papers describe life in an idealized and sustainable 21st century city. They also show that the move to sustainability will be a difficult and arduous course. By describing these possible futures, they give us an alternative from our current future and something to aspire to and plan for.

Vital signs monitoring of hydraulic turbine/generators

by T.E. Goodeve, G.B. Pollock and M.R. Bissonnette. Montreal : Canadian Electrical Association, Engineering and Operating Division, Rotating Machines Section, 1992. 9 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06041 1 fiche

A cost-effective predictive maintenance tool has been developed for monitoring the condition of hydraulic turbine generators. The tool allows the measurement of selected vital machine parameters. Hydraulic turbine generators are very simple machines compared to steam driven turbo-generators, and in general their condition changes very slowly over time. Sudden failures are rare, and this is the principle reason why such a cost-effective monitoring instrument could be developed. The monitoring equipment is based on the concept of monitoring machine vital signs on a periodic basis. Ontario Hydro's experience with dynamic air gap monitoring, requirements for complete monitoring, monitoring system development, software, results from a system installed at R.H. Saunders Generating Station, and vital signs configuration at Kipling Generating Station are discussed.

Volcanic studies in the Birch-Uchi lakes area of Ontario

by A.M. Goodwin. Toronto : Dept. of Mines, 1967. vi, 96 p. : ill., maps. Bibliogr. (Miscellaneous paper ; 6) *Fold. maps not filmed.*
MICROLOG 93-02390 2 fiche

Archean greenstone belts of the Canadian Shield, of predominant volcanic composition, have long been recognized as principal repositories of gold, base metals and iron deposits. To help mineral exploration in Ontario, a program of volcanic studies of selected greenstone belts was begun in 1963, with the Birch-Uchi Lakes greenstone belt of northwestern Ontario selected for the first because the structure of the belt is relatively simple, the volcanic succession is thick and varied, and associated mineral deposits are significant in number. During the 1963 field season, selected stratigraphic sections were examined in detail, volcanic units were sampled for bulk chemical analyses, and associated mineral occurrences were examined. This report describes the location and access to the area, the topography and previous work conducted; the general and structural geology, volcanic stratigraphy and history; chemical composition; economic geology, including descriptions of specific properties; and the relationship of mineralization to volcanism.

Volunteer 2000 Steering Committee : report

Nova Scotia. Volunteer 2000 Steering Committee. Halifax : The Committee, 1992. 20 p.
MICROLOG 93-02134 1 fiche

In June 1990 the Government of Nova Scotia activated a commitment to devise a realistic, strategic action plan for the future of Nova Scotia's volunteer movement. The Minister invited people from across Nova Scotia to sit on a Steering Committee, entitled Volunteer 2000, to develop and recommend a plan to help build and support a volunteer sector. This report presents information on the Committee's discussions concerning volunteer recruitment and support, administrative services, provincial government funding, the cost of volunteering, promotion, organizational effectiveness, employer support, and legal liability. It includes recommendations.

Volunteer transportation service, coordinator's manual : a guide to operating a volunteer driving program

Toronto : Ministry of Citizenship, Office for Seniors' Issues, 1992. v, 158 p. Bibliogr.
ISBN 0-7778-0190-6
MICROLOG 93-03799 2 fiche

This document begins with some of the most basic questions of program structure. It then looks at other key elements of the program's design, including the role of the Coordinator, volunteer program management, and policy development. It also discusses other important elements in a program's development and operation, including questions around user fees and driver reimbursement, risk management and insurance, volunteer driver information, emergency information, record keeping, and program evaluation

Vos droits : un guide juridique à l'intention des femmes victimes d'agression

Toronto : Direction générale de la condition féminine de l'Ontario ; Barbra Schlifer Commemorative Clinic, 1991. 142 p. *L'éd. anglaise (Your rights ; an assaulted...) : 93-00129/2.* ISBN 0-7729-8856-0
MICROLOG 93-00128 2 fiche

Ce guide, destiné aux femmes qui ont été agressées ou maltraitées par leur mari ou leur conjoint, comporte des données générales sur le système judiciaire, le logement, l'immigration, l'aide sociale et l'aide à l'enfance. Il compte deux parties principales sur le système judiciaire canadien. La première porte sur le droit criminel, la seconde sur le droit de la famille. On répond dans chaque partie aux questions que posent le plus souvent les femmes agressées.

Vue d'ensemble des relations économiques entre le Canada et le Brunéi Darussalam

Ottawa : Affaires extérieures et commerce extérieur Canada, Direction des relations avec l'Asie et le Pacifique Sud, 1990. 11, 11 p. *Bilingue (Survey of bilateral economic...Darussalam).*
MICROLOG 93-05081 1 fiche

Ce document passe en revue la nature et l'étendue des relations commerciales et économiques entre le Canada et le Brunéi depuis le milieu des années 80. La brièveté de ce document reflète la portée limitée de ces relations à l'heure actuelle et en souligne leur récente évolution. La section 2 décrit l'évolution économique récente du Brunéi en insistant sur la croissance des principaux secteurs de l'économie et sur les priorités de l'actuel plan quinquennal en matière de développement. La section 3 décrit les principaux éléments du commerce Canada-Brunéi, les débouchés commerciaux offerts aux Canadiens au Brunéi et les études sectorielles, achevées à ce jour, en vue de soutenir les efforts du Canada pour trouver des débouchés au Brunéi. La section 4 définit le cadre de coopération entre les deux pays et met en relief plusieurs initiatives prévues ou en cours qui sont venues renforcer les relations bilatérales pendant l'année.

W.E. *RICKER* and *EASTWARD HO* cruise to study the effect of trawling on rockfish behaviour, October 15-27, 1990

by R. Kieser...et al. Nanaimo, B.C. : Dept. of Fisheries and Oceans, Biological Sciences Branch, Pacific Biological Station, 1992. iv, 84 p. : ill. Bibliogr. (Canadian manuscript report of fisheries and aquatic sciences ; no. 2161) ISSN 0706-6473
MICROLOG 93-03489 1 fiche

A previous cruise collected acoustic observations of undisturbed rockfish behaviour and school structure over a number of 24-hour periods. The objective of this cruise was to obtain complementary observations on the distribution of rockfish before, during, and after the passage of a trawl net. Additional work investigated the influence of towpoint location and ballast distribution on the stability of the towed body housing the acoustic transducer. The experiments were carried out near the edge of the continental shelf, off Quatsino Sound, British Columbia. The principle rockfish studied was the Pacific ocean perch.

Wabigoon Lake area (NTS 52F/NE), District of Kenora

by M.A. Roed. Toronto : Ministry of Natural Resources, Ontario Geological Survey ; Ministry of Northern Affairs, 1980. iii, 16 p. : map. Bibliogr. (Northern Ontario engineering geology terrain study ; 22) *Fold. map not filmed.* ISSN 0709-4671 ISBN 0-7743-4298-6
MICROLOG 93-02308 1 fiche

This report contains an inventory of regional engineering terrain conditions in the Wabigoon Lake area, District of Kenora. Information was obtained mainly through aerial photographs checked with published and unpublished literature documenting previous field visits and observations. Two automobile field trips were conducted in 1978 to identify major terrain units and verify the airphoto interpretation. The report describes the geological setting and engineering terrain units, including bedrock, moraine, glaciofluvial, glaciolacustrine, eolian, alluvial and organic landforms.

Wage earnings and productivity of labour in selected industries of Ontario : an exploratory survey

by A. Ghebremichael. Sault Ste. Marie, Ont. : Forestry Canada, Ontario Region, Great Lakes Forestry Centre, 1990. 20 p. : ill. Bibliogr. (Miscellaneous report ; no. 99) *CSI 22332.201.* ISSN 0832-7130 ISBN 0-662-17943-9
MICROLOG 93-02556 1 fiche

This study is a comparative assessment among industries of employment (annual labour input), current- and constant-dollar wages paid, the share of labour in value added (defined as the ratio of total salaries plus wages to total value added), and labour productivity. It compares six Ontario industries: logging, sawmills and planning mills, paper and allied industries, gold and uranium mines, residential construction, and all hotels and motels. It highlights the major economic functions of wages; describes the data base used; examines the trends in employment, wages, and the share of labour in value added; gives an overview of the techniques used to estimate labour productivity, and discusses the results of the estimate.

War criminals : the Deschênes Commission -- Rev.

by G. Purves. Ottawa : Library of Parliament, Research Branch, 1992. 15 p. Bibliogr. (Current issue review ; 87-3E) *French ed. (Les Criminels de guerre : la Commission...) : 93-00943/1. Revised 13 May, 1992.* ISBN 0-660-14615-0
MICROLOG 93-03135 1 fiche

In recent years, the presence in Canada of individuals who may, as Nazis or Nazi collaborators, have committed war crimes in Europe 40 to 45 years ago has raised a number of issues, including these: how many such individuals currently reside in Canada; how they came to be here; whether they should be the object of investigation and prosecution; and, if so, what means might be used to bring them to justice. This document explores these issues. It focuses on the war crimes trials, the onset of the cold war and the decision to halt war crimes trials, exclusions under Canadian immigration policy, the establishment of the Deschênes Commission, the criminal law, and denaturalization and deportation.

Waste minimization opportunities in the upstream oil and gas industry, vol. II : application of a waste reduction model to a sour gas plant

Beak Consultants. Ottawa : Canadian Association of Petroleum Producers ; Environment Canada, 1992. iv, 39 p. : fold. ill.
MICROLOG 93-04014 1 fiche

This report involves the application of a waste reduction model to a generic sour gas plant to determine the best option for waste minimization and the resultant cost benefits. The generic plant was developed from process knowledge provided by the industry as well as information from industry manuals and represents a facility of average capacity and typical configuration. Several waste minimization options were modelled for chosen waste streams. The streams were based on their quantities, disposal costs, and potential.

Water adsorption in the Pickering Unit 3 Annulus Gas System

by F. Greening. Toronto : Ontario Hydro, Research Division, 1992. ii, 13 p. : ill. Bibliogr. (Report ; no. 92-2-K)
MICROLOG 93-02901 1 fiche

The adsorption of water by corrosion particulate has been reviewed as the probable cause of the sluggish response of the P3 Annulus Gas System (AGS) during moisture injection tests carried out in the summer of 1991. The presence of substantial quantities of hydrated iron oxide, i.e. rust, in debris samples from the P3 AGS is used as evidence for the material being the major water adsorber/desorber in the system. The 1974 flooding of the P3 AGSs is proposed as the major cause of enhanced iron-base alloy corrosion in this Unit. It is recommended that the corrosion of radiation shielding sleeves should be evaluated in the P4 and B2 reactors because of the history of AGS flooding in the Units.

Water chemistry and microbial corrosion in oilfield water handling facilities : final report

by T. Jack and B. Bramhill. Ottawa : Energy, Mines and Resources Canada, Canada Centre for Mineral Energy Technology, Energy Research Laboratories, 1992. xi, 114 p. : ill. Bibliogr. *CANMET contract: 23440-1-9062-01-SQ*
MICROLOG 93-01563 2 fiche

This study was carried out in an oilfield waterflood operation in which produced brine is reinjected to displace more oil from the reservoir. Significant corrosion problems are associated with bacterial colonization of the water handling system. This report describes results of an audit of chemical, biological and corrosion parameters measured across the Wainwright waterflood operation over 30 months. Based on the insights obtained and previous observation of shifts in microbial populations with variations in water chemistry, a series of runs was conducted in the field test facility at unit 13 waterplant to investigate the effect of specific chemical additions.

Waterfowl in the aspen parkland of central British Columbia

by J.-P.L. Savard. Delta, B.C. : Canadian Wildlife Service, Pacific and Yukon Region, 1991. x, 106 p. : ill. Bibliogr. (Technical report series ; no 132) ISSN 0831-6481 ISBN 0-662-18809-8
MICROLOG 93-00175 2 fiche

From 1980-86, during an intensive study of the ecology of Barrow's Goldeneye, data were collected on all species of waterfowl in a 150 sq km area near Riske Creek, B.C. This study analyzes that information to characterize the waterfowl community breeding; evaluate seasonal and annual fluctuations in waterfowl abundance; the relationships between adult males, pairs, and brood numbers; the breeding chronology of waterfowl near the creek; the influence of lake size and sub-areas on waterfowl distribution; and to compare the waterfowl community of Riske Creek with that of the Prairie Provinces.

Waterfowl surveys along the Alaska Highway, southern Yukon, spring and summer 1989, and suggestions for an annual trend survey

by W.A.C. Nixon, J. Majiski and J. Hawkings Delta, B.C. : Canadian Wildlife Service, Pacific and Yukon Region, 1992. 32 p. Bibliogr

(Technical report series ; no. 159) ISSN 0831-6481 ISBN 0-662-19843-3
MICROLOG 93-03715 1 fiche

In May 1989, a survey of 20 wetlands along the Alaska Highway between Whitehorse and Watson Lake was conducted to determine their suitability as indicators of waterfowl population trends and to determine waterfowl productivity. The wetlands were selected for ease of access and visibility. Each wetland was classified as small or large and wetland characteristics were classified. The shores and shallow water areas of deep water habitats (Lacustrine system) were classified under the Palustrine System. Water quality parameters (pH, conductivity, and temperature) were recorded in most wetlands in conjunction with brood surveys. The mean number and 95 percent confidence intervals were calculated for each species of waterfowl observed on more than one survey.

Watershed management evaluation and policy review : final summary report

prepared by Economic and Engineering Services, Inc. ; in cooperation with Terrasol...et al. Vancouver : Greater Vancouver Water District, 1991. 160 p. : ill., fold. maps. Bibliogr.
MICROLOG 93-08701 2 fiche

The project included a study and report on the current policies and operations in GVWD's three municipal watersheds. The last technical review of the watershed management program was conducted in the mid-1960s and both watershed management philosophies and social concerns have changed in the past two decades. The GVWD appointed a special Panel to conduct the study. The Panel was comprised of technical experts that possessed a range of diverse backgrounds related to municipal watershed management, including water quality, forest soils, silviculture, forest hydrology, wildlife and fisheries. The two objectives of this study were to one, evaluate the existing Watershed Management Program in light of its current mandates and administration, and two, to identify impediments to better management and recommend changes to improve the Program.

MICROLOG 93-06314 2 fiche

Proceedings of the workshop, conducted to better understand the health-atmosphere relationship; to establish what interests and opportunities exist for health-related weather services in Canada; and to develop recommendations for Canadian courses of action. The workshop included presentations by invited speakers from Canada, the United States, and Germany who shed light on the known, suspected, and predicted relationships between different states of health and various weather/climate elements. Representatives of several health-care associations presented their views on the workshop theme from their associations' perspectives. In the afternoon of each day, participants were divided into three working groups to discuss specific health-weather issues and develop recommendations.

Weathering the storm : AMO's response to the 1993 Ontario budget

Association of Municipalities of Ontario. Toronto : The Association, 1993. 13 p. (Policy response series ; FIN93R02) ISBN 1-55140-006-5
MICROLOG 93-07810 1 fiche (Available on fiche only)

The 1993 Ontario Budget reflects the extremely difficult times facing the public sector in Ontario. Unlike its previous two budgets, deficit reduction is clearly the priority for this government in 1993. This response looks at how this translates to the municipal sector. It provides a budget analysis which focuses on stimulating investment and economic recovery; maintaining services, controlling costs; revenue changes; and positive changes. It provides a summary of recommendations.

Weld zone corrosion in electric resistance welded pipe : final report

by N. Pussegoda and L. Malik. Ottawa : Fleet Technology Limited, 1992. i, 52 p. : ill. Bibliogr. *CANMET contract: 23440-0-9251-01-SQ*
MICROLOG 93-04264 1 fiche

The manufacture of pipes and tubes by the electric resistance welding (ERW) method is a high productivity process, and there are at least three steel mills in Canada manufacturing such products. In the as-welded condition, the weld zone is usually susceptible to corrosion, both in sour and non-sour aqueous environments, leading to stress corrosion and/or grooving types of corrosion. A galvanostatic anodic dissolution (GAD) test was developed to assess preferential corrosion in weld zone in icebreaker hull applications. This project determined if the standardized GAD test could be fused to assess the weld zone corrosion in ERW pipes and evaluated the effect of composition of steel, postweld heat treatment, and pipe thickness on weld zone corrosion.

Westco/Pool east central Saskatchewan soil conservation study : soil conservation through extended rotations : final report

by G. Hnatowich, J. Harapiak and N Flore Regina : Saskatchewan Wheat Pool, Product Development ; Saskatchewan Agriculture Development Fund, 1989. 40 p. : ill
MICROLOG 93-02361 1 fiche

A reduced frequency of summerfallowing associated with extended rotations could be beneficial in assisting and possibly overcoming the degree of soil degradation that has taken place. However, in the east central region of Saskatchewan, extended stubble cropping is often perceived as impractical because of the high input costs, the largest of which is fertilizer. If extended cropping programs are to be accepted by the farming community, the benefits of effective fertilizer application must be demonstrated under local conditions. This study was conducted during the 1988 growing season when 14 sites were maintained and harvested along major highways or well travelled rural roads. All sites were trimmed, maintained weed free and posted. Tours were arranged of the sites and the operations were explained by agronomists. The project was also promoted through winter extension meetings, reports in farm newspapers in Manitoba and Saskatchewan and industry information fact sheets.

prepared for Alberta Economic Development and Tourism...et al. ; by Sentar Consultants Ltd Calgary, Alta. : The Corporation, 1993. v p.
MICROLOG 93-04558 1 fiche

This study inventoried and characterized the Western Canadian environmental industry and analyzed its structure, performance, and capabilities; identified business development opportunities; and identified opportunities for cooperation among firms, between industry and government, and between federal and provincial governments, to further develop and diversify the industry in Western Canada. Phase I consisted of a questionnaire survey of over 2,000 companies selling environmental goods and services. Phase 2 involved detailed personal interviews with almost 100 purchasers of environmental goods and services, mainly resource-based major industrial corporations; government purchasers at the municipal, provincial, and federal levels; and other stakeholder groups, including environmental lawyers, venture capitalists, bankers, and research institutes. Phase 3 involved a series of focus group sessions attended by key industry participants in each of the four provinces.

What is a North American good? The NAFTA rules of origin

by J.R. Johnson. Toronto : C.D. Howe Institute, 1993. 16 p. Bibliogr. (Commentary ; no. 40) *At head of title: The NAFTA papers.* ISSN 0824-8001 ISBN 0-88806-313-X
MICROLOG 93-07767 1 fiche

In free trade areas, rules of origin determine which goods receive preferential treatment. The North American Free Trade Agreement (NAFTA) will revise the rules of origin in the Canada- U.S. Free Trade Agreement. Under the NAFTA, determinations of national origin will also be necessary pending complete elimination of duties. This document describes how the NAFTA rules or origin will function. It discusses determinations of national origin by which it will be ascertained which NAFTA treatment applies to a particular originating good. Finally it looks at provisions respecting disputes and application of the rules.

What makes exemplary kindergarten programs effective?

edited by Carl Corter, Norman W. Park. Toronto : Ministry of Education and Training, 1993. vii, 137 p. Bibliogr. *French ed. (Les Programmes exemplaires de jardins d'enfants) : 93-08399/2. ONTERIS: ON06435.* ISBN 0-7778-0522-7
MICROLOG 93-08384 2 fiche

Through a review of literature, this study aimed to identify and analyze exemplary and effective kindergarten practice in Canada. After a general introduction to the Ontario context for kindergarten, the study examined approaches to: play and problem solving; language and literacy; social-emotional development: social skills, peer relationships and self-worth; and teacher roles, beliefs, and practices. 12 focus groups were held, and the views of teachers and consultants in these groups were summarized. In addition, 5 exemplary kindergarten programs were used as case studies.

What the developing world is doing to attract mineral investment capital : recent changes

Ottawa : Intergovernmental Working Group on the Mineral Industry, Government/Industry Task Force, 1992. vii, 27 p. (Background study on the Canadian mineral investment climate ; no. 10) *A review of some of the proceedings at the UN/CIM International Seminar on Mining Taxation.*
MICROLOG 93-05408 1 fiche

It was agreed at the 1991 Mines Ministers' Conference in Halifax that a government/industry task force be formed to review and assess Canada's international competitiveness for mineral investment capital. This review focuses on the recent changes that have taken place, or are expected to take place in the near future, in the mineral resource regulatory regimes in Brazil, Peru, Botswana, Namibia, Zimbabwe, Russia, Papua New Guinea, Indonesia, and China. The review is based on a series of papers that were presented by these countries at an international seminar on mining taxation.

What we heard : issues and questions raised during the public hearings

Ottawa : Royal Commission on New Reproductive Technologies, 1991 44 p. : ill. *French ed. (Les Audiences publiques...) on the same fiche.*
MICROLOG 93-07451 1 fiche

This booklet summarizes the issues that Canadians raised during the public hearings held by the Royal Commission on New Reproductive Technologies. The Commission heard from more than 550 people, appearing on their own behalf, or on behalf of nearly 250 organizations. Each issue is categorized by region and then assigned to one or more of 12 sectors or communities of interest relevant to the Commission's mandate. Sectors include alternative and community health and social services; family, religious, and pro-life, ethnocultural; aboriginal; labour; concerned citizens; infertile people, consumers of new reproductive technologies; families at risk, and support groups; groups and individuals representing people with disabilities; medical community; industry and commercial organizations. This summary of issues is intended to stimulate discussion among interested groups and individuals.

What's in it for the river? A review of British Columbia's potential participation in the Canadian Heritage Rivers System and the implications for provincial river management

Canadian Heritage Rivers System Advisory Committee (B.C.). Victoria : Ministry of Environment, Lands and Parks, 1993. 38 p. ISBN 0-7726-1790-2
MICROLOG 93-09009 1 fiche

This report present recommendations made concerning the appropriateness of British Columbia joining the Canadian Heritage Rivers System and how the system itself might be improved. The Advisory Committee reviewed a wide range of land management and planning approaches currently in use or under development in the Province. The intent was to determine the applicability of these initiatives to the goals and objectives of resource protection and recreation that are at the foundation of concerns for river integrity. This report was developed out of that analysis and from the discussions and ideas of Committee members.

within an organization to someone outside that organization. This document raises a number of issues for reappraisal such as: Should whistleblower protection apply to all employees? Who should inquire into and respond to an allegation of serious wrongdoing? To what extent should a report into allegations of serious wrongdoing contain confidential information? How should the report be made public? What measures are needed to protect employees from employer penalties or retaliation for having disclosed serious wrongdoing? Is a new whistleblower protection agency required? And should a whistleblower protection program be established in separate legislation?

Wife abuse : the impact on children

Ottawa : Health and Welfare Canada, National Clearinghouse on Family Violence, 1991. 4 p. Bibliogr. *French ed. (La Violence conjugale et ses conséquences...) on the same fiche.*
ISBN 0-662-19206-0
MICROLOG 93-03261 1 fiche

It is estimated that one in ten women in Canada is the victim of assault by her partner. It is increasingly recognized that the children of these women are also profoundly emotionally and psychologically affected by the abuse. The majority of these children personally witness the injury of their mothers. In addition there is a strong likelihood that children of abused women will directly suffer some form of abuse themselves. This document determines the number of children affected; the links between wife assault and child abuse; the social, emotional, psychological, learning, and economic impact on the child's life; and the long term consequences for children living in a violent home. It also identifies what can be done for children who experience the negative impact of wife abuse.

Wife assault as a crime : the perspectives of victims and police officers on a charging policy in London, Ontario, from 1980-90

London Family Court Clinic Inc.. Ottawa : Dept. of Justice, Research and Development Directorate, Research Section, 1991. ix, 53 p. : ill. Bibliogr. (Working document ; WD1991-13a) *L'éd. anglaise (Le Crime de la violence conjugale : les...) : 93-08070/1.*
MICROLOG 93-08069 1 fiche

This study addresses the effectiveness of police officers laying charges in cases of wife assault when the police have reasonable and probable grounds to believe that an assault has taken place. The effectiveness of this policy was assessed by interviewing 90 women in London, Ontario, who had been physically assaulted by their partner and received one of three interventions: police intervention/charges laid; police intervention/no charges laid; no police intervention/no charges laid. The effectiveness of the policy was also assessed by examining police data on the number of charges laid and a survey of police officer's attitudes in regard to the importance and impact of the directive to lay charges in cases of wife assault. Limitations are also discussed.

Wind and wave climate atlas, vol. I : the east coast of Canada

prepared by MacLaren Plansearch (1991) Limited ; for Transportation Development Centre, Policy and Coordination Group, Transport Canada. Halifax : The Corporation, 1991. xiv, 390 p. : ill., maps. Bibliogr. *CSI 22507.201.*
MICROLOG 93-03589 5 fiche

This study was conducted to develop a wind and wave climate atlas for the east coast of Canada, the Gulf of St. Lawrence and the Great Lakes. The project collected, consolidated and presented the existing environmental data in a format that could be used to assess the strength and operational requirements of vessels and other marine structures for operation in these regions. Each region is divided into a number of subareas or sites, based on the availability of data within the region, shipping lanes and fishing grounds, and the meteorological conditions. This volume presents the Canadian East Coast region extending from the Bay of Fundy through the Gulf of Maine, Georges Bank and Scotian Shelf to the Grand Banks of Newfoundland and Labrador Sea. The region was divided into 17 subareas and the maximum wind and wave values during three-house time intervals are presented.

Wind energy site assessment

by G.C. Edwards and Y.T. Tam. Toronto : Ontario Hydro, Research Division, 1992. 15 p. Bibliogr. (Report ; no. 92-58-K)
MICROLOG 93-02993 1 fiche

An assessment of the wind energy potential for electrical generation at a site near Enniskillen, Ontario was undertaken. Wind data was collected at the site for one month, and compared to that from nearby weather stations. Wind statistics suitable for evaluating wind energy potential were determined and a sample wind energy assessment based on the site wind characteristics and a commercially available wind energy system such as Bergey Wind Power's BWC EXCEL was carried out.

Wind engineering studies on tall buildings : transition in research

by A. Baskaran. Ottawa : National Research Council of Canada, Institute for Research in Construction, 1993. 19 p. : ill. Bibliogr. *In* Building and Environment *: vol. 28, no. 1, 1993.*
MICROLOG 93-08761 1 fiche (Available on fiche only)

In this paper a systematic attempt has been made to show the changes in wind engineering research on tall buildings by reviewing a few carefully selected studies. Wind effects on buildings are mostly quantified by using wind tunnel measurements, and research transitions in wind tunnel studies are presented in the second section. Efforts are also made in identifying the various research stages in full scale monitoring of wind effects on buildings and this is presented in Section 3. Section 4 summarizes ten different stages in wind engineering research, along with an established pattern for tall building studies in the wind tunnel.

Windsor air quality study : preliminary findings

Toronto : Environment Ontario, 1992. 21 p.
MICROLOG 93-02289 1 fiche

In June 1991, a two-year air quality study was begun in the Windsor, Ontario area to establish if there were significant problems in the Windsor airshed, what caused the problems and to develop an effective abatement strategy. The study includes enhanced monitoring for 50 airborne toxic substances, including special studies of personal exposure and measurements in industrial areas; improvement of the emissions inventory for the Windsor-Detroit area; mathematical modelling of air quality in the airshed to identify the major contributing sources and source sectors; risk assessment to determine the health implications of breathing Windsor air and the exposure to toxics via other pathways such as ingestion through food and water; and the establishment of a local advisory group to assist in the development of an abatement strategy. This report summarizes the results of the first six months of the study, taken mainly from the personal exposure and sampling programs conducted in summer 1991. Some results from air monitoring stations in Windsor are also included.

Winnipeg Core Area Initiative : final status report of programs and projects to December 31, 1991

Ottawa : Government of Canada ; Winnipeg : The City ; The Province, 1991. 107 p. *At head of title: 1986-91 Core Area Agreement*
MICROLOG 93-01107 2 fiche

The Winnipeg Core Area Initiative was a multi-million dollar, tri-government project designed to improve the economic, social and physical conditions in Winnipeg's core area. It was originally created in 1981 for a five-year term by an agreement between the federal, provincial, and municipal governments with a 96 million dollar package of 13 programs. In 1986, it was renewed for another five-year term with a further 100 million dollars allocated. This status report is a documentation of activities undertaken under the second agreement from 1986-1991. The report describes the programs conducted for industrial and entrepreneurial support, the Exchange District redevelopment, East Yard redevelopment, riverbank enhancement, neighbourhood and community development, housing, employment and training, neighbourhood main streets and small business support, central administration, and public information and programming. A short description of the projects conducted for each of the programs is included, including financial aspects.

The Winter Lake-Lac de Gras regional mapping project, central Slave Province, District of Mackenzie, Northwest Territories

by P.H. Thompson. Ottawa : Geological Survey of Canada, 1992. 6 p. *In* Current Research, Part A, *1992*
MICROLOG 93-01081 1 fiche

A 1:250,000 scale mapping project covering 10,800 sq km in the field seasons 1992-94 was initiated to understand the origin, evolution and

economic potential of the region by upgrading the bedrock geology of the east half of Winter Lake and west half of the Lac de Gras map areas, located 250 km north of Yellowknife. The project began in the summer 1992 with a three-week reconnaissance on Noname Lake, Lake Providence, and Courageous Lake. Field work combined brief visits to previously-mapped outcrops with regular traverses that represent the start of systematic mapping. Information collected was stored and processed using a combination of FIELDLOG and AUTOCAD. Samples were collected for paleomagnetism of basic dykes, for geochronology and for a gravity and aeromagnetic study to determine the 3-dimensional shape of supracrustal and plutonic units.

Women and mental health in Ontario : a compilation of recommendations to the Ontario Government

Toronto : Ontario Advisory Council on Women's Issues, 1991. 15, 17 p. *Bilingual (La Santé mentale des femmes...)*
MICROLOG 93-03289 1 fiche

Between February and April 1991, members of the Ontario Advisory Council on Women's Issues travelled to Kapuskasing, Thunder Bay, Ottawa, and Owen Sound to meet with women interested in discussing women's mental health. Each meeting took the form of a brainstorming session which offered participants the opportunity to discuss ideas on how to improve mental health for women. The objective of these consultations was to gather feedback from the women in each region and develop recommendations for presentation to government. The recommendations in this document are a culmination of concerns, issues, and suggestions raised by the participants at the consultation on mental health.

Women and Taxation Working Group report

Ontario. Fair Tax Commission. Women and Taxation Working Group. Toronto : The Commission, 1992. v, 50 p. Bibliogr. *Highlights (2 p.) laid in.*
MICROLOG 93-04166 1 fiche

The Women and Taxation Working Group was established by the Treasurer to answer specific questions regarding the fairness of the current tax system. The Treasurer's questions to this group were: Does the tax system discriminate against women? And what changes could be made to the tax system that could address discrimination and/or enhance progress towards the elimination of inequalities faced by women? This document contains the Working Group's response to these and other questions. It focuses on the choice of the tax unit, and tax treatment of retirement income and savings, women's unpaid labour, children, and women's other caregiving activities.

Women in Canada : socio-economic status and other contemporary issues -- Rev.

by S. Harder. Ottawa : Library of Parliament, Research Branch, 1992. 18 p. Bibliogr. (Current issue review ; 91-5E) *Revised 12 February, 1992. French ed. (Les Femmes au Canada...) on the same fiche.* ISBN 0-660-14654-1
MICROLOG 93-01842 1 fiche

Although a great deal of attention has been directed to the issue of women's status in Canada, women continue to face conditions that set them apart from men in our society. Canadian women on average continue to earn less than men. In 1987, women working full-time made approximately 66 percent of the incomes of their male counterparts. This document discusses accounts for gender inequality and looks at economic factors that contribute to this inequality such as the labour market and poverty. It also presents information on social issues such as violence, health, and politics.

Women refugee claimants fearing gender-related persecution

Ottawa : Immigration and Refugee Board, 1993. 20 p. *At head of title: Guidelines issued by the chairperson pursuant to Section 65(3) of the Immigration Act.*
MICROLOG 93-05152 1 fiche

Most gender-related refugee claims brought forward by women raise four critical issues: To what extent can women making a gender-related claim of fear of persecution successfully rely on any of the five grounds of the Convention refugee definition? Under what circumstances does sexual violence, or a threat thereof, or other prejudicial treatment towards women constitute persecution as that term is jurisprudentially understood? What are the key evidentiary elements which decision-makers have to look at when considering a gender-related claim? And what special problems do women face when called upon to state their claim at refugee determination hearings. This document addresses each of these issues.

Women's housing projects in eight Canadian cities

by G.R. Wekerle. Ottawa : Canada Mortgage and Housing Corporation, Policy, Research and Programs Sector, Research Division, 1988. v, 191 p. : ill. Bibliogr.
MICROLOG 93-03308 3 fiche

This study provides the first in-depth analysis of women's housing projects in Canada. It analyzes and compares ten non-profit housing projects located in eight cities which have been developed either by or for women. Five of these projects are housing cooperatives; five are second-stage facilities where either battered women or single parents and their children can live for a specified time period. It focuses on the development process and physical design of the housing, and on residents' experience of living in this housing. It documents how each group created housing to serve women and examines how the project works from the residents' perspective.

The Women's Safety Project : a community based study of sexual victimization in women's lives : report on the pilot study

project directors: Lori Haskell, Melanie Randall. Ottawa : Health and Welfare Canada, Family Violence Prevention Division, 1992. 109 p. Bibliogr. *ONTERIS: ON05992.*
MICROLOG 93-01254 2 fiche

Report of a community-based pilot survey developed out of a need for Canadian research on the prevalence, nature, and impact of women's experiences of sexual and physical abuse. The methodological approach followed that of Dr. Diana Russell, which, among other benefits, results in a high rate of disclosure. Face-to-face interviewing was used, to ensure rapport, and the concepts involved in the interview were clearly defined, for example 'women's safety'. Goals of the pilot project were to: test the research instrument and its administration; train the interviewers; and test and refine fieldwork process and data management systems. Gives a complete outline of questionnaire development, sampling procedures, interviewer selection, training and monitoring, fieldwork and data management, materials, etc. Although not including a discussion of data gathered during the pilot process, the questionnaire development section contains some information of this type which was used during revision.

MICROLOG 93-00728 1 fiche

The aerial application of herbicides needs to be carried out under specific and appropriate climatic conditions to be biologically effective. These conditions vary diurnally as well as over the course of the season and from year to year. As an example of a potential application, long-term hourly climatic records from the Atmospheric Environment Service Monitoring Station located at the Kapuskasing Airport were used to determine the daily and seasonal distribution of elements that affect aerial herbicide application, including wind speed, temperature, relative humidity, and rainfall. Hourly climatic records were used to develop mean work probabilities on a weekly basis for the Kapuskasing District over the summer tending season.

Worker productivity in commercial thinnings, part III

Truro, N.S. : Dept. of Natural Resources, Forestry Branch, Forest Research Section, 1993. 16 p. : ill. Bibliogr. (Forest research report ; no. 44)
MICROLOG 93-06583 1 fiche

Since 1982, approximately 13,000 ha of commercial thinnings and shelterwoods were completed under cost shared federal-provincial agreements. Between 1989 and 1991, two reports were published that summarize the results of studies carried out to determine worker productivity in softwood commercial thinnings harvest using shortwood methods. During 1992, the sample was expanded to include hardwood species and methods of harvest other than shortwood. This report discusses and compares the separate and combined results of the pre-1992 and the 1992 productivity studies

Worker productivity in merchantable thinning operations, part II

Truro, N.S. : Dept. of Lands and Forests, Forestry Branch, Forest Research Section, 1991. 8 p. Bibliogr. (Forest research report ; no. 28) *At head of title: Cooperation Agreement for Forestry Development*
MICROLOG 93-08746 1 fiche

Over the past 11 years the amount of silviculture carried out in Nova Scotia has increased dramatically. Most of this work is carried out by silvicultural contractors and paid for in large part from funds available under cost shared federal-provincial agreements. To provide data necessary for refining rates paid for this work, a series of productivity studies were initiated beginning in 1986. A preliminary report was published in 1989. Since then, additional studies have been undertaken and more data has been collected. This report summarizes the results derived from the combined data base for merchantable thinnings.

Workers' Compensation Board of Nova Scotia : Annual report 1991

Halifax : The Board, 1992. 31 p. : ill. *CSI 52131.001.*
MICROLOG 93-04034 1 fiche

The Board is responsible for providing workers' compensation coverage to Nova Scotia employers and collection of assessment revenue. It classifies industries, determines rates and adjudicates claims resulting from work-related accidents, making decisions concerning the payment of claims as a result of reports from workers, employers, doctors and hospitals. It assists in the rehabilitation of workers returning to the work force, as well as the permanently disabled. To assist in claims processing the Board's Medical Department performs physical examinations and acts as medical advisor in the claims adjudication. This annual report is on unfunded liability, turning information into knowledge, improving client service, and changing the corporate culture. Financial statements, notes to them, and financial schedules are included. A statistical summary presents the total activity, new claims, claim processing benchmarks, claims by county, age of client, registered by sex, pension, nature of injury, part of body injured, source of injury, and accident type. A glossary of terms concludes the document.

Yellow cypress : can we grow it? Can we sell it? Proceedings of a symposium

compiled and edited by J. Daniel Lousier. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1991. vi, 57 p. : ill. Bibliogr. (FRDA report ; 171) ISSN 0835-0752 ISBN 0-7726-1517-9
MICROLOG 93-00359 1 fiche

Yellow-cedar accounts for 0.67% of the B.C. forest resource and until the early 1980s was considered a nuisance species. In addition, the Japanese were prepared to pay a high price for yellow-cedar logs. In 1983, MacMillan Bloedel began custom cutting and today consumes all of their sawable material in their custom cutting department. This symposium addresses the products and marketing of yellow cypress, its biology, ecology, and regeneration, research needs, silviculture, and site recommendations.

You can't give it away : tax aspects of ecologically sensitive lands

by M. Denhez. Ottawa : Canadian Wetlands Conservation Task Force ; National Round Table on the Environment and the Economy ; North American Wetlands Conservation Council, 1992. vi, 56 p. : ill. Bibliogr. (Sustaining wetlands issues paper ; no. 1992-4) *French ed. (Ce n'est pas un cadeau : les terres...) : 93-07186/1.* ISBN 1-895643-15-5
MICROLOG 93-07185 1 fiche

This paper focuses on the Income Tax Act, on the property tax systems that are in place in each province and territory, and how these tax systems affect the setting aside of ecologically significant lands for conservation purposes through gifts of real estate and conservation covenants and easements. Other federal and provincial taxes affecting wetlands are described, including the Goods and Services Tax. A detailed discussion of property tax treatment includes assessments, specific favourable measures, provincial and territorial profiles, and new measures under consideration.

The Young adult learner : fifteen- to eighteen-year-old students in the Ontario English-language school system

principal investigators: Paul Anisef, Laura C. Johnson ; with Gary Bunch...et al. Toronto : Ministry of Education and Training, 1993. 2 v. : ill. Bibliogr. *ONTERIS: ON06430.* ISBN 0-7778-0752-1
MICROLOG 93-08390 4 fiche

Assessed dramatic changes in social, demographic, economic, technological, and other changes that have placed increasing pressure on Ontario educational systems in recent years in the light of educational and profile data on 15 to 18 year old learners, grades 10 to graduation. Suggested the need for a more responsive and flexible approach to classroom instruction, to the school as a community institution, and to the diversity of learning needs, backgrounds, and expectations. Volume one summarized changes in the province, including increased population, and changes in family forms and youth cultures. It reviewed Canadian and international literature on youth at risk and exceptional students with regard to learning styles, as well as social and psychological factors (bibliography included)

Current program initiatives in Ontario schools were researched, and a unified vision of learning as a culture and diverse process was explored; options and strategies consistent with this vision were then considered. Volume two provided socio-demographic profiles of youth based on analyses of macro databases available, as well as micro or regional databases

The Young Offenders Act -- Rev.

by P. Rosen. Ottawa : Library of Parliament, Research Branch, 1992. 23 p. Bibliogr. (Current issue review ; 86-13E) *Revised 11 May, 1992.* ISBN 0-660-14609-6
MICROLOG 93-03131 1 fiche

With the coming into force of the Young Offenders Act (YOA), Canada's treatment of criminal activity by adolescents underwent a marked change. The YOA replaced the Juvenile Delinquents Act (JDA), first enacted in 1908, which exemplified what has been described as the 'welfare' model of dealing with young offenders. This review summarizes the principal elements of the YOA, noting, where appropriate, significant differences between it and the JDA. It also deals briefly with those areas of the YOA which have become controversial or which are said to be in need of reform.

Youth in the 90s

by S. McCrossin. Halifax : Nova Scotia Youth Secretariat, 1993. xvii, 132 p. : ill. Bibliogr.
CSI 52185.200
MICROLOG 93-04200 2 fiche

This document is a comprehensive document about people aged 15-24 in Nova Scotia. It provides statistical and other research information on a wide-variety of topics, as well as discussing some particular areas of concern for young people. It concludes with the presentation of four principles which should guide policy and services affecting youths in Nova Scotia. They are: youths are products of their societies; youths are an extremely diverse population; an investment in youth is an investment in the future; and youths should be given the opportunity to take a leading role in issues which affect their lives.

Youth migration : northern perspectives : the Northern Development Councils' report

presented at the Northern Development Councils' annual meeting. Toronto : Ministry of Northern Development and Mines, 1991. ii, 63 p. : ill. *French ed. (La Migration des jeunes...) : 93-02675/1. CSI 55117.202.*
MICROLOG 93-02676 1 fiche

During the 1980s, youth migration from Northern Ontario became increasingly prevalent. Aware of the impact the significant loss of young people was having on many northern communities, the Minister of Northern Development asked the nine Northern Development Councils to explore the reasons behind youth migration. The Councils were established in 1986 by the Minister to provide advice and information on current northern issues. This document provides the Councils' findings on why young people leave the North, why young people move to, or stay in, the North, and how young people feel about the North.

Whitehorse : Yukon Government, Executive Council Office, Bureau of Statistics, 1991. 125 p. : ill. *CSI 79107.200*
MICROLOG 93-02727 2 fiche

The presence of alcohol and other drugs permeates the life-styles and social problems facing the Yukon. Alcohol and drugs have both direct and indirect impacts on the health care system and dominate many social welfare issues. In the fall of 1990, the Yukon Alcohol and Other Drugs Survey asked 1,348 Yukoners about their attitudes and behaviours regarding the use of alcohol and other drugs. This survey, in combination with the National Health Promotion Survey of 1985, has provided an unprecedented set of indicators as to the extent of alcohol use and other associated behaviours in the Territory. This document contains the survey findings.

The Dept. focuses its energy on the Education Act, including implementation of new school policies which greatly increase school autonomy. It supports programs which are of both immediate and long-term benefit to the First Nations people of the Yukon. The annual report gives an introduction and the activities of each of its divisions: public schools, advanced education, libraries and archives, finance and administration. Statistics for each division is also given.

Zebra mussels mitigation at Ontario Hydro's hydroelectric generating facilities

by A.M. Dorneanu. Montreal : Canadian Electrical Association, Hydraulic Power Section, 1992. 15 p. : ill. Bibliogr. *Presented at the Canadian Electrical Association Engineering and Operating Conference.*
MICROLOG 93-06053 1 fiche

Zebra mussels present a significant threat to reduce or totally block the water flow in the auxiliary systems of any generating station, water treatment plant or municipal water facility that use raw lake water and to cause accelerated corrosion of the metallic substrate to which they attach themselves. To satisfy the immediate need for control, chlorination was identified as the most effective interim measure to prevent the biofouling of the raw water systems. The installation, operation, environmental constraints, benefits and deficiencies of the chemical treatment is presented. A strategy to prevent further impact on the operation of hydroelectric facilities and long term design alternatives are also discussed

Zwick's Island landfill environmental investigations : final report

Toronto : Ministry of the Environment, Waste Management Branch, Waste Site Evaluation Unit, 1991. 193 p. : ill., maps. Bibliogr.
ISBN 0-7729-8846-3
MICROLOG 93-03980 3 fiche

In the 1980s, the Ontario Ministry of the Environment initiated a program to investigate and monitor all active and closed landfills in the province. Zwick's Island, located at the south end of the City of Belleville on the Bay of Quinte, is the location of a landfill site used mainly for municipal waste that was closed in 1971. This study was conducted to assess any existing and potential future landfill leachate impacts on ground water; to determine any existing or potential future landfill leachate impacts on surface waters; to determine any existing or potential future landfill gas impacts; to determine the contaminant loading pathways and calculate approximate loads to the Bay of Quinte; and to identify any impacts to the environment or potential risks to human health.

Rapport annuel 1992. MICROLOG 93-05723 2 fiche

Rapport d'enquête sur accident aéronautique : Air Limo Canada Inc. Beechcraft D95A, Travel Air C-GLMM 1 mi à l'est de Saint-Claude, Québec, 1er mai 1990. MICROLOG 93-03332 1 fiche

Rapport d'enquête sur accident aéronautique : Canadian Helicopters Limited, Bell 212 (hélicoptère) C-GBHJ, 12 mi au nord-nord-ouest de Blue River (Colombie-Britannique) 17 avril 1990. MICROLOG 93-07331 1 fiche

Rapport d'enquête sur accident aéronautique : Frontier Air Ltd. Beechcraft C99 airliner C-GFAW, Moosonee (Ontario), 30 avril 1990. MICROLOG 93-06343 2 fiche

Rapport d'enquête sur accident aéronautique : risque de collision entre l'Aérospatiale ATR42, C-FLCP et le de Havilland Dash 8, C-GAAM, 5 nm au nord-est de l'aéroport international de Montréal/Dorval, Québec, 17 février 1992. MICROLOG 93-08664 1 fiche

Rapport d'enquête sur accident aéronautique : Trans North Turbo Air Ltd., McDonnell Douglas 369D (hélicoptère) C-FBVG, 15 mi à l'est du lac Exeter, Territoires du Nord-Ouest, 24 août 1992. MICROLOG 93-08711 1 fiche

Rapport d'enquête sur accident aéronautique : Vancouver Island Helicopters Ltd., Bell 206B Jetranger (hélicoptère) C-GVIR, Sulphurets Creek, Colombie-Britannique, 24 juillet 1991. MICROLOG 93-08100 1 fiche

Rapport d'enquête sur accident de productoduc : Petroleum Transmission Company, poteau kilométrique 933, Winnipeg, Manitoba, 6 h HAC, le 20 septembre 1990. MICROLOG 93-01443 1 fiche

Rapport d'enquête sur accident de productoduc : TransCanada Pipelines Limited, canalisation 300-1, rupture d'un gazoduc, poteau kilométrique VCP 302-1 plus 2,859 KM, Marionville, Ontario, 17 h 5 HAE, le 6 juin 1990. MICROLOG 93-04230 1 fiche

Rapport d'enquête sur accident ferroviaire : Canadien pacifique limitée déraillement, train numéro 2-571-24, point milliaire 77,92, subdivision Maple Creek, Cardell (Saskatchewan) 16 H 6 HAR, le 26 juin 1990. MICROLOG 93-06167 1 fiche

Rapport d'enquête sur accident ferroviaire : Canadien pacifique limitée déraillement, train numéro 990/23, pointe milliaire 10,43, subdivision Aldersyde, Nobleford (Alberta), 2 h 43 HAR, le 24 octobre 1990. MICROLOG 93-02828 1 fiche

Rapport d'enquête sur accident ferroviaire : Canadien pacifique limitée et VIA Rail Inc., quasi-collision, point milliaire 33,79, subdivision Smith Falls du CN, Smith Falls, Ontario, 13 h 03 HNE, le 6 février 1991. MICROLOG 93-02102 1 fiche

Rapport d'enquête sur accident ferroviaire : Compagnie des chemins de fer nationaux du Canada déraillement, train numéro 306, point milliaire 41,59, subdivision Kingston, Coteau, Québec, 14 H 30 HNE, le 21 mars 1991. MICROLOG 93-08635 1 fiche

Rapport d'enquête sur accident ferroviaire : Compagnie des chemins de fer nationaux du Canada, déraillement, train numéro 305-24, point milliaire 106,1, subdivision Napadogan, Napadogan (Nouveau-Brunswick), 4 h 10 HAA, le 24 mai 1990. MICROLOG 93-01943 1 fiche

Rapport d'enquête sur accident ferroviaire : Compagnie des chemins de fer nationaux du Canada, déraillement, train numéro 882, point milliaire 26,0, subdivision Beachburg, Dunrobin, Ontario, 22 h 55 HNE, le 25 janvier 1991. MICROLOG 93-02103 1 fiche

Rapport d'enquête sur accident ferroviaire : Norfolk Southern Corporation déraillement et collision, train numéro 358, point milliaire 90,11 subdivision Cayuga Courtland (Ontario). MICROLOG 93-03216 1 fiche

Rapport d'enquête sur accident ferroviaire : Via Rail Inc., incident dangereux, train no 12, point milliaire 54,97, subdivision Sherbrooke du CN, Bromptonville, Québec, 21 h 20 HNE, le 2 mars 1991. MICROLOG 93-02293 1 fiche

Rapport d'enquête sur accident maritime : chavirement et naufrage du B.P. *Straits Pride II* par 47 degrés 58' N et 51 degrés 54,8' W, qui a entraîné la mort de trois des six membres d'équipage, 17 décembre 1990. MICROLOG 93-04176 1 fiche

Rapport d'enquête sur accident maritime : échouement et naufrage subséquent du *Zagreb* sur les Grey River Rocks, côte sud de Terre-Neuve, 6 novembre 1990. MICROLOG 93-07682 1 fiche

Rapport d'enquête sur accident maritime : événement dangereux entre le traversier *Dartmouth III* et le *Alfred Needler*, Port de Halifax (Nouvelle-Ecosse) 23 juillet 1990. MICROLOG 93-07241 1 fiche

Rapport d'enquête sur accident maritime : événement dangereux entre le traversier *Woodside I* et le remorquer *Tussle* port de Halifax, Nouvelle-Ecosse, 25 juillet 1990. MICROLOG 93-07103 1 fiche

Rapport d'enquête sur accident maritime : heurt du traversier canadien *Howe Sound Queen* contre le quai de la gare maritime de Horseshoe Bay, West Vancouver, Colombie-Britannique, 8 décembre 1991. MICROLOG 93-08530 1 fiche

Rapport d'enquête sur accident maritime : talonnage avec avaries du navire transporteur de produits raffinés *Eastern Shell* sur Knight Shoal (haut-fond Knight), baie Géorgienne, Ontario, 10 mai 1991. MICROLOG 93-04345 1 fiche

Rapport d'enquête sur accident maritime, le B.P. *Northern Osprey* a coulé à la position approximative de 60 degrés 23'N par 60 degrés 54'W au large de la côte nord du Labrador après avoir été endommagé par la glace 27 juin 1990. MICROLOG 93-00711 1 fiche

Bulletin ENFOR, 1991 : énergie de la forêt. MICROLOG 93-01207 1 fiche

Canada. Secretary of State

Information management awareness program. MICROLOG 93-05693 1 fiche

Canada. Secteur de l'Asie et du Pacifique

Vue d'ensemble des relations économiques entre le Canada et l'Indonésie, 1992. MICROLOG 93-05104 1 fiche

Vue d'ensemble des relations économiques entre le Canada et la Malaisie, 1992. MICROLOG 93-05103 1 fiche

Vue d'ensemble des relations économiques entre le Canada et la Thaïlande, 1992. MICROLOG 93-05101 1 fiche

Vue d'ensemble des relations économiques entre le Canada et les Philippines, 1992. MICROLOG 93-05102 1 fiche

Vue d'ensemble des relations économiques entre le Canada et Singapour, 1992. MICROLOG 93-06516 1 fiche

Canada. Secteur de l'énergie. Direction de l'énergie électrique
L'Energie électrique au Canada, 1991. MICROLOG 93-00593 2 fiche

Canada. Secteur des politiques pénales et sociales
Modifications au Code criminel et à la Loi sur la preuve au Canada concernant les personnes handicapées : document de consultation. MICROLOG 93-06926 1 fiche

Canada. Secteur minier
Statistiques de l'industrie canadienne du minerai de fer, 1992. MICROLOG 93-08784 1 fiche

Canada. Section d'horticulture
Rapport annuel des déchargements, partie I : fruits et légumes frais de production intérieure sur 10 marchés canadiens, 1992. MICROLOG 93-04789 1 fiche

Revue du marché des pommes de terre, 1989-90. MICROLOG 93-05894 1 fiche

Revue du marché des pommes de terre, 1991-92. MICROLOG 93-07071 1 fiche

Canada. Section des produits pétroliers
Etude comparée du commerce au détail de l'essence au Canada et aux Etats-Unis pour la période 1980-90. MICROLOG 93-03495 1 fiche

Canada. Sécurité routière
Rapport annuel 1991-92. MICROLOG 93-06545 1 fiche

Canada. Security Intelligence Review Committee
1993-94 estimates, part III : Security Intelligence Review Committee. MICROLOG 93-04693 1 fiche

Annual report 1991-92. MICROLOG 93-01385 3 fiche

The Attack on the Iranian Embassy in Ottawa, expurgated copy. MICROLOG 93-00936 1 fiche

Canada. Seniors
A Shared concern : an overview of Canadian programs addressing the abuse of seniors. MICROLOG 93-02279 2 fiche

Canada. Service de l'environnement atmosphérique
Adaptation au changement climatique et variabilité des ressources en eau du Canada. MICROLOG 93-08710 1 fiche

Atlas canadien des glaces de mer basé sur l'imagerie d'un système de détection en hyperfréquences, juillet 1987 à juin 1990. MICROLOG 93-04522 1 fiche

Etude de modèles de prévision des variations climatiques et de leurs incidences sur l'hydrologie, les courants côtiers et les pêches en Colombie-Britannique. MICROLOG 93-07856 1 fiche

Incidences du changement climatique sur le régime glaciel de la mer de Beaufort : répercussions sur l'industrie pétrolière dans l'Arctique. MICROLOG 93-08638 1 fiche

Canada. Service de la protection de l'environnement
Code de recommandations techniques pour la protection de l'environnement applicable aux centrales thermiques : phase de l'exploitation. MICROLOG 93-02184 1 fiche

Code de recommandations techniques pour la protection de l'environnement applicable aux centrales thermiques : phase de la mise hors service. MICROLOG 93-02185 1 fiche

Compte rendu des activités de lutte contre la pollution des eaux de l'industrie minière au Canada, 1990 et 1991. MICROLOG 93-03283 1 fiche

Construction et démonstration d'une unité portable de purification et de récupération des produits chimiques ayant servi au traitement du gaz naturel dans l'industrie pétrolière. MICROLOG 93-00590 1 fiche

Estimation des émissions de gaz provoquant l'effet de serre au Canada en 1990. MICROLOG 93-02263 2 fiche

Exigences internes d'assurance de la qualité pour l'analyse des dioxines dans des échantillons prélevés dans l'environnement. MICROLOG 93-01743 1 fiche

Méthode d'essai biologique : essai d'inhibition de la croissance de l'algue d'eau douce *Selenastrum capricornutum*. MICROLOG 93-04849 1 fiche

Méthode d'essai biologique : essai de toxicité aigue de sédiments chez des amphipodes marins ou estuariens. MICROLOG 93-04850 2 fiche

Méthode d'essai biologique : essai de toxicité sur la bactérie luminescente *Photobacterium phosphoreum*. MICROLOG 93-04125 1 fiche

Méthode d'essai biologique : essai sur la fécondation chez les échinides (oursins verts et oursins plats). MICROLOG 93-05433 2 fiche

Rapport de situation sur l'environnement, 1987-90 : industrie du chlorure de vinyle. MICROLOG 93-00073 1 fiche

Surveillance nationale de la pollution atmosphérique : extrait annuel de 1991. MICROLOG 93-08003 1 fiche

Canada. Service des délégues commerciaux
Répertoire du Service des délégués commerciaux du Canada. MICROLOG 93-03602 1 fiche

Canada. Service fédéral de médiation et de conciliation
Rapport annuel sur les mesures prises en vertu du Code canadien du travail, partie I, 1991-92. MICROLOG 93-04676 1 fiche

Canada. Small Business Office
Exporting for competitiveness : ten steps for small business : report on small business in Canada, 1992. MICROLOG 93-04543 1 fiche

Canada. Solicitor General Canada
1993-94 estimates, part III : Solicitor General Canada. MICROLOG 93-04954 2 fiche

Annual report 1991-92. MICROLOG 93-07735 2 fiche

Federal-provincial issues in corrections. MICROLOG 93-00603 2 fiche

First Nations policing tripartite agreements. MICROLOG 93-02811 2 fiche

Police and the elderly : evolving implications in an aging society : summary. MICROLOG 93-06800 1 fiche

Canada. Solicitor General Canada. Ministry Secretariat
Study to review and analyze RCMP data on spousal assault from 1985 to 1988. MICROLOG 93-02166 1 fiche

Canada. Solliciteur général Canada
Budget des dépenses 1993-94, partie III : Solliciteur général Canada. MICROLOG 93-04954 2 fiche

Compétences fédérales et provinciales en matière correctionnelle. MICROLOG 93-00603 2 fiche

La Police et les personnes âgées : nouvelles répercussions dans une société qui vieillit : résumé. MICROLOG 93-06800 1 fiche

Computation of radiant heat transfer on a non-orthogonal mesh using the Finite Volume Method. MICROLOG 93-01529 2 fiche

Cooling buildings in downtown Toronto : final report on the work of the Deep Lake Water Cooling Investigation Group. MICROLOG 93-05436 1 fiche

Copper in gold plant effluent, Saskatchewan MDA : final report. MICROLOG 93-01567 1 fiche

Critical examination of correlations between fracture toughness and charpy impact energy : final report. MICROLOG 93-01536 2 fiche

A Critical review of mend studies conducted to 1991 on subaqueous disposal of tailings : final report. MICROLOG 93-01571 1 fiche

Crystallization of PbCl2 from synthetic ferric chloride leach liquor. MICROLOG 93-03429 1 fiche

Demonstration of a modified combustion emission control system with sorbent injection for NOx and SO2 reduction, vol. II : appendices. MICROLOG 93-04294 2 fiche

The Determination of Burst Proneness Indices for Lac du Bonnet granite and granodiorite. MICROLOG 93-01516 1 fiche

The Development of a flowmeter for measuring ash recirculation rates in fluidized bed combustors. MICROLOG 93-00497 1 fiche

Development of a method for the determination of mono-, di-, and polyaromatics in middle distillates by supercritical fluid chromatography : final report. MICROLOG 93-03437 1 fiche

Development of conversion efficient processes for plus 525C pitch to low boiling distillates : final report. MICROLOG 93-04285 4 fiche

Development of direct contact superheated steam drying process for biomass : final report. MICROLOG 93-04287 1 fiche

Development of methane gas detection/measurement suitable for use in drilling within underground coal mines. MICROLOG 93-06881 2 fiche

Development of permeability data on 50-mm thick concrete specimens : provisional final report. MICROLOG 93-01531 1 fiche

Development of software for three dimensional mine blast analysis : final report. MICROLOG 93-04983 1 fiche

The Effect of shielding gas composition on mild steel GMA weld composition, properties, and porosity : theoretical background, experimental results, and proposed future work. MICROLOG 93-01554 1 fiche

Efficiency optimization of large scale cyclone at the Chatham CFB. MICROLOG 93-03482 1 fiche

Engineering critical assessment of a service-damaged vessel : final report. MICROLOG 93-01533 2 fiche

Engineering study to determine site and capital cost of a central sand reclamation plant. MICROLOG 93-04262 1 fiche

Environmental scanning electron microscopy of high volume fly ash concrete : report. MICROLOG 93-08330 1 fiche

Evaluation of consumables and sleeve welding procedure verification. MICROLOG 93-05442 2 fiche

Evaluation of low-grade energy sources for utilization in fluidized bed combustion in the Timiskaming area. MICROLOG 93-03473 1 fiche

Evaluation of mining subsidence field data, Cape Breton, N.S. MICROLOG 93-08325 2 fiche

Evaluation of steels for sensitivity to hydrogen induced cracking in the reheated heat affected zone : final report. MICROLOG 93-01539 1 fiche

An Evaluation of the EM instruments' loss-of-metallic-area (LMA) signals. MICROLOG 93-00505 1 fiche

Evaluation of the KRW (Kellog-Rust-Westinghouse) integrated gasification-combined cycle demonstration stage process for conversion of Alberta's highvale coal to electricity : final report. MICROLOG 93-03435 1 fiche

Evaluation of the U.S. mid-scale apparatus for measuring the flammability of conveyor belting, part II. MICROLOG 93-05434 1 fiche

An Expert system for monitoring and control of boiler operations : final report. MICROLOG 93-05441 1 fiche

Explosibility tests on ferrosilicon dusts. MICROLOG 93-03983 1 fiche

Fabrication and fatigue evaluation of welded tee and tubular joints for structures in a marine environment : final report. MICROLOG 93-04282 5 fiche

Fabrication of FCC catalysts from Suncor flyash leach residue for Carbovan Inc. MICROLOG 93-06857 1 fiche

Fabrication of wear resistant coatings. MICROLOG 93-08334 1 fiche

Final report on the physical chemistry of nickel smelting. MICROLOG 93-01540 1 fiche

Finite element modelling of fracture mechanics parameters of industrial and laboratory specimens : final report. MICROLOG 93-01546 1 fiche

Freezing of backfilled stopes in permafrost : natural potential in Canadian mining areas. MICROLOG 93-00503 1 fiche

Freezing of backfilled stopes in permafrost, maximum rate : thin films and continuous feed. MICROLOG 93-08312 1 fiche

Gating and Risering of Ductile Iron Castings operating manual, version 1.00. MICROLOG 93-04267 1 fiche

Gays River Mine dewatering and water inflow prevention. MICROLOG 93-01548 1 fiche

Gays River overburden stability investigation, Halifax Co., N.S. : final report. MICROLOG 93-08322 6 fiche

Geotechnical studies at east Bull Lake research area (RA-7). MICROLOG 93-03430 2 fiche

Geotechnical studies at Whiteshell research area (RA-3). MICROLOG 93-03420 3 fiche

Gold and silver elution from carbon loaded in thiourea leach solution : final report. MICROLOG 93-01542 5 fiche

Ground stability guidelines for cut and fill mining of wide ore bodies : final report. MICROLOG 93-04295 4 fiche

Heat-affected zone toughness of ship plate : final report. MICROLOG 93-01575 1 fiche

Heavy oil bioreactor. MICROLOG 93-02165 2 fiche

Hydrochemistry assessment of mine water, Gays River Lead-Zinc Mine, Milford Station, Hants County, NS : final report. MICROLOG 93-01551 2 fiche

Hydrogeochemical studies and interpretations related to mineralogical studies of sulphide-rich tailings : final report. MICROLOG 93-04281 5 fiche

A Hyper-manual on expert systems : instructions for use. MICROLOG 93-04268 1 fiche

Improved moisture reduction for Victoria Junction fine clean coal : final report. MICROLOG 93-03436 1 fiche

Improving corrosion properties of Mg and Mg alloys by ion implantation and ion beam assisted deposition (IBAD) : final report. MICROLOG 93-08335 1 fiche

In-home evaluation of emission characteristics of EPA-certified high technology non-catalytic woodstoves in Klamath Falls, Oregon, 1990 : final report. MICROLOG 93-08339 2 fiche

The Influence of continuous structures on ground stability at the Fraser Mine, Sudbury Basin. MICROLOG 93-03421 1 fiche

Initial technical evaluation of an agglomeration/vat leaching process for recovering gold from Touquoy and Goldboro. MICROLOG 93-04270 2 fiche

Instability mechanisms initiating flow failures in mountainous mine waste dumps, phase I. MICROLOG 93-04269 1 fiche

An Inter-laboratory analytical study on the analysis of gold in copper anode slimes. MICROLOG 93-00499 1 fiche

Inter-laboratory comparison tests for X-ray diffraction on-filter silica analysis, February 1992. MICROLOG 93-03423 1 fiche

Introducing BSM : a computer program of the Block-Spring Model for analyzing jointed rocks. MICROLOG 93-04254 1 fiche

Investigating the application of a water-alternating gas flood using produced gas for the Senlac heavy oil field : final report. MICROLOG 93-08320 1 fiche

Investigation of development blasting practices : final report. MICROLOG 93-05444 1 fiche

Invisible gold distribution in pyrite and arsenopyrite from free-milling, transitional and refractory gold ores, Nerco Con Mine, Yellowknife, NWT. MICROLOG 93-08333 1 fiche

The Ion-nitride processing of stainless and nickel bearing aerospace alloys. MICROLOG 93-08337 1 fiche

Large-scale dust explosion experiments to determine the effect of scaling on explosion parameters : final report. MICROLOG 93-04288 1 fiche

Licensing assessment of Mineral Sciences Laboratories technologies. MICROLOG 93-01569 1 fiche

The Measurement of long range reaction stresses and the shakedown effect : final report. MICROLOG 93-01562 1 fiche

MEND Program Project, passive treatment project at Heath Steele Mines, phase I : bench evaluation of prospective processes : research report. -- Draft. MICROLOG 93-04273 1 fiche

Metrology and monitoring of 220Rn progeny MICROLOG 93-08316 1 fiche

Microbial metabolism of alkyl and condensed thiophenes : final report. MICROLOG 93-01543 1 fiche

Microbial plugging of mine wastes to reduce or prevent the generation of acidic mine drainage : final report. MICROLOG 93-01560 1 fiche

Microwave power optimization for carbon activation, phase II : final report. MICROLOG 93-04260 1 fiche

Modelling of pulverised coal swirling flames in axi-symmetric furnaces : final report MICROLOG 93-01528 3 fiche

Monitoring a sealed longwall panel. MICROLOG 93-03425 1 fiche

Monitoring of excavation performance. MICROLOG 93-06864 1 fiche

Monitoring of large mining induced seismic events. MICROLOG 93-05438 1 fiche

Neural networks and their applications in mineral processing, part I : what is a neural network? MICROLOG 93-00501 1 fiche

Neural networks and their applications in mineral processing, part II : why use neural networks and where? MICROLOG 93-01519 1 fiche

Nickel/cobalt recovery from midwest raffinate solution : project final report. MICROLOG 93-01573 3 fiche

A Novel scheme for primary upgrading of heavy oil : final report, phase I. MICROLOG 93-04297 2 fiche

NOx and SO2 emissions with no. 6 and no. 4 fuel oils at Canadian Forces Base Halifax, January 1992. MICROLOG 93-03427 1 fiche

Nuclear fuel waste management program geotechnical studies of Eye-Dashwa lakes research area rock properties. MICROLOG 93-03431 2 fiche

Numerical investigation of groundwater inflow, Gays River Mine, N.S. MICROLOG 93-01553 1 fiche

Office airphoto mapping and correlation of sinkholes with available maps and reports : geologic and hydrogeologic data synthesis, Westminer Mine site and surrounding area. MICROLOG 93-01552 1 fiche

Oil sands tailings sludge abandonment dry land reclamation study : final report. MICROLOG 93-01572 2 fiche

Operating manual for the 60cm semiautogenous grinding (SAG) mill at the University of B.C., UBC. MICROLOG 93-01535 2 fiche

Optimization of dragline performance through computer control, phase III : final report. MICROLOG 93-00498 1 fiche

Optimization of dragline performance through computer control, phase IV : final report. MICROLOG 93-04279 1 fiche

An Overview of the metals recycling industry in Canada. MICROLOG 93-08331 4 fiche

Oxygen sensor development and application to Canadian metallurgical industries : final report. MICROLOG 93-08329 1 fiche

Permeability properties of Urylon-453 to 222Rn. MICROLOG 93-08315 1 fiche

Pillared clay mineral catalysts : final report. MICROLOG 93-06876 1 fiche

Pilot plant testing of simultaneous sulphur capture during fluid bed gasification : final report. MICROLOG 93-03479 1 fiche

Predicting the vapour pressures of gasoline samples. MICROLOG 93-04265 1 fiche

Prediction of the characteristic spread in dieselized mine air quality indices (AQIs) vs measured ambient CO2 concentrations. -- Rev. MICROLOG 93-08318 1 fiche

Preliminary field trials to detect microseismic activity in Lingan Colliery Sydney Coalfield, Cape Breton, Nova Scotia (PERD). MICROLOG 93-01568 2 fiche

Preliminary local magnitude scales for mining-induced seismicity at some mines in the Sudbury Basin. MICROLOG 93-03422 1 fiche

A Preliminary mine stability assessment at Dumagami Mine, Quebec. MICROLOG 93-00504 1 fiche

A Preliminary report on magnitude scaling of mining induced seismicity at Kirkland Lake. MICROLOG 93-04255 1 fiche

Prince Edward Island wood chip-fired boiler performance. MICROLOG 93-06873 1 fiche

Progress during the second half of 1991 in the underground uranium mine and surface radiation environment projects of the Mining Research Laboratory (CANMET). MICROLOG 93-01515 1 fiche

Project management and scientific support for the Canadian Advanced Fluids Research Group : final report, 1990-92. MICROLOG 93-01541 1 fiche

Proposed technical work scope, CANMET/industry ECA initiative, phase II : engineering critical assessment of hydrogen-charged service-damaged pressure vessels. MICROLOG 93-01566 1 fiche

Pull strength testing of JENNMAR resin rock bolt at Evans Coal Mine. MICROLOG 93-08314 1 fiche

Pull testing of cotter pin bolts. MICROLOG 93-05435 1 fiche

Quasi-frozen high pit wall stability analysis of placer mines, Yukon Territory, phase I : soil classification and stratigraphic analysis. MICROLOG 93-05437 2 fiche

Queen's Tomographic Imaging (QTI) : user's guide : CANMET package V1.0. MICROLOG 93-04296 2 fiche

Radioactive dust sampling, part 2 : long lived radioactive dust (LLRD) characterization and LLRD instrument evaluation under laboratory-controlled conditions. MICROLOG 93-03419 4 fiche

Recovery of gold from Pine Cove ore. MICROLOG 93-01577 1 fiche

Recycle of baghouse product at Chatham CFB demonstration : report. MICROLOG 93-03483 5 fiche

Removal of ammonium and nitrate from mine effluents by sequential nitrification/denitrification. MICROLOG 93-03428 1 fiche

Report on annual testing of concrete specimens, phases I to XI, at Treat Island, Maine. MICROLOG 93-04275 1 fiche

Report on overburden drilling investigation and hydrogeological assessment, Gays River Mine, Milford Station, Nova Scotia. MICROLOG 93-01549 3 fiche

Report on the development of Canadian telemetry opportunities for district energy systems : final report. MICROLOG 93-01545 2 fiche

Report on underground dewatering and stability considerations, Gays River, Nova Scotia. MICROLOG 93-01550 2 fiche

Report to CANMET on in situ stress measurements at Lingan Colliery Cape Breton, Nova Scotia. MICROLOG 93-00495 1 fiche

Report to Department of Supply and Services Ltd. on review of pack research in the Sydney Coalfield, N.S. MICROLOG 93-04283 4 fiche

Review of the application of ceramic solid electrolytes to the medium temperature decomposition of H2S. MICROLOG 93-03982 2 fiche

The Flora of Canada, part 2 : Pteridophyta, gymnospermae, monocotyledoneae. MICROLOG 93-03000 5 fiche

The Flora of Canada, part 3 : Dicotyledoneae (saururaceae to violaceae). MICROLOG 93-03001 6 fiche

The Flora of Canada, part 4 : Dicotyledoneae (loasaceae to compositae). MICROLOG 93-03002 7 fiche

Ice-worms (Oligochaeta: Enchytraeidae) from western British Columbia. MICROLOG 93-02821 1 fiche

A List of Rotifera recorded from Canada with synonyms. MICROLOG 93-03031 1 fiche

Mammals of the Yukon Territory. MICROLOG 93-03048 2 fiche

The Marine molluscs of Arctic Canada. MICROLOG 93-02855 2 fiche

Molluscs from Baffin Bay and the northern North Atlantic Ocean. MICROLOG 93-02854 1 fiche

A New cottid fish *Nautichthys robustus* from Alaska and British Columbia. MICROLOG 93-02850 1 fiche

A New species of Arctic eelpout *Lycodes sagittarius* from the Beaufort Sea, Alaska, and the Kara Sea, USSR (Pisces: Zoarcidae). MICROLOG 93-02849 1 fiche

On *Acroloxus coloradensis* (Henderson) (Gastropoda, Basommatophora) in eastern Canada. MICROLOG 93-02848 1 fiche

Palynological research at the National Museum of Natural Sciences, Ottawa : today and tomorrow. MICROLOG 93-03030 1 fiche

A Phylogenetic tree of the animal kingdom (including orders and higher categories). MICROLOG 93-02844 2 fiche

Shrimps and shrimp-like anomurans (Crustacea, Decapoda) from southeastern Alaska and Prince William Sound. MICROLOG 93-02817 1 fiche

Station lists and new distributional records of littoral marine invertebrates of the Canadian Atlantic and New England regions. MICROLOG 93-02816 1 fiche

Studies on amphipod crustaceans of the northeastern Pacific region, I. MICROLOG 93-02819 2 fiche

National Recreation Forum (1991 : Ottawa, Ont.)

National Recreation Forum : proceedings. MICROLOG 93-04131 1 fiche

National Research Council Canada

1993-94 estimates, part III : National Research Council Canada. MICROLOG 93-04765 2 fiche

Annual report 1991-92. MICROLOG 93-06500 2 fiche

Geochronological evidence for multiple tectonothermal overprinting events in the East Kemptville muscovite-topaz leucogranite, Yarmouth County, Nova Scotia, Canada. MICROLOG 93-01447 1 fiche

Management of marine fisheries in Canada. MICROLOG 93-06944 9 fiche

Outplanting survival of cylindrocladium root rot affected black spruce seedlings. MICROLOG 93-06362 1 fiche

Production of juvenile Atlantic salmon *Salmo salar*, in natural waters. MICROLOG 93-03785 3 fiche

The Relative importance of competition, microsite, and climate in controlling the stem taper and profile shape in jack pine. MICROLOG 93-06371 1 fiche

Some considerations when selecting young jack pine families using growth and form traits. MICROLOG 93-06370 1 fiche

Workshop on Canadian Research in Aircraft Ground Deicing : proceedings. MICROLOG 93-03094 3 fiche

National Research Council Canada. Associate Committee on Hydrology

Canadian hydrological science : facing the challenges of a changing world. MICROLOG 93-04914 1 fiche

Canadian research basins : successes, failures and future : proceedings. MICROLOG 93-02187 5 fiche

National Research Council Canada. Division of Electrical Engineering

Direct estimation of deformable motion parameters from a range image sequence. MICROLOG 93-07944 1 fiche

A Method of computing smooth transitions between a sequence of straight line paths for an autonomous vehicle. MICROLOG 93-07942 1 fiche

On the theory of impulse breakdown in gases. MICROLOG 93-07943 1 fiche

Simple model of the gaseous plasma and its soliton solutions. MICROLOG 93-07941 1 fiche

National Research Council Canada. Institute for Information Technology

Annual report 1991-92. MICROLOG 93-01222 1 fiche

Application of the BIRIS range sensor for wood volume measurement. MICROLOG 93-03702 1 fiche

Discrete event simulation using object-oriented programming : application to manufacturing. MICROLOG 93-01080 1 fiche

National Round Table on Aboriginal Justice Issues (1992 : Ottawa, Ont.)

Aboriginal peoples and the justice system : report. MICROLOG 93-07779 6 fiche

National Round Table on Aboriginal Urban Issues (1992 : Edmonton, Alta.)

Aboriginal peoples in urban centres : report. MICROLOG 93-07686 2 fiche

National Round Table on the Environment and the Economy (Canada)

Annual review 1991-92. MICROLOG 93-02759 1 fiche

Annual review 1992-93. MICROLOG 93-08791 1 fiche

Canadian round tables on the environment and the economy : their history, form and function. MICROLOG 93-06375 1 fiche

Corporate sustainable development reporting in Canada : reporting on sustainable development in support of decision-making for corporations and sectors. MICROLOG 93-06373 1 fiche

Discussions on decision-making practices for sustainable development. MICROLOG 93-01179 2 fiche

Emerging trends and issues in Canada's environmental industry. MICROLOG 93-06374 1 fiche

Environmental impact assessment and competitiveness. MICROLOG 93-06376 2 fiche

Environmental regulations and the Canadian pulp and paper industry : an examination of the Porter strategy. MICROLOG 93-06385 1 fiche

Environmentally perverse government incentives. MICROLOG 93-06386 1 fiche

The Financial services industry and sustainable development : managing change, information and risk. MICROLOG 93-06384 1 fiche

Green guide : a user's guide to sustainable development for Canadian colleges. MICROLOG 93-02162 3 fiche

Lender liability for contaminated sites : issues for lenders and investors. MICROLOG 93-06383 1 fiche

Market correction : economic incentives for sustainable development. MICROLOG 93-06382 1 fiche

Preserving our world : a consumer's guide to the Brundtland report. MICROLOG 93-04839 2 fiche

Prosperity and sustainable development for Canada : advice to the Prime Minister : with an introduction on Sustainability, the key to competitiveness in the 21st century. MICROLOG 93-06381 1 fiche

A Report on waste management for the construction industry. MICROLOG 93-03477 1 fiche

Reporting on sustainable development : the municipal and household level. MICROLOG 93-06379 1 fiche

Sustainablity and prosperity : the role of infrastructure. MICROLOG 93-06377 1 fiche

Toward sustainable communities : a resource book for municipal and local governments. MICROLOG 93-02678 4 fiche

Trade, environment and competitiveness : sustaining Canada's prosperity. MICROLOG 93-02679 5 fiche

You can't give it away : tax aspects of ecologically sensitive lands. MICROLOG 93-07185 1 fiche

National Round Table on the Environment and the Economy (Canada). Task Force on Sustainable Development Reporting

Reporting on sustainable development in support of national decision-makers. MICROLOG 93-06378 1 fiche

National Summit on Information Policy (1992 : Ottawa, Ont.)

Handbook exploring the legal context for information policy in Canada. MICROLOG 93-01708 2 fiche

National Task Force on Vapour Recovery in Gasoline Distribution Networks (Canada)

Environmental code of practice for vapour recovery in gasoline distribution networks. MICROLOG 93-00244 1 fiche

National Transportation Act Review Commission (Canada)

Competition in transportation : policy and legislation in review, vol. I and II. MICROLOG 93-06649 6 fiche

Submission of the Province of Manitoba to the National Transportation Act Review Commission (National Transportation Act) (Motor Vehicle Transportation Act). MICROLOG 93-01104 1 fiche

National Transportation Agency of Canada

1993-94 estimates, part III : National Transportation Agency of Canada. MICROLOG 93-04616 2 fiche

Administration of the Access to Information Act and the Privacy Act : Annual report 1990-91. MICROLOG 93-01352 1 fiche

Administration of the Access to Information Act and the Privacy Act : Annual report 1991-92. MICROLOG 93-01380 1 fiche

Annual report 1992. MICROLOG 93-04591 1 fiche

Annual review 1992. MICROLOG 93-07314 3 fiche

National Transportation Agency of Canada reports, 1989. MICROLOG 93-06488 6 fiche

The Road to accessibility : an inquiry into Canadian motor coach services : summary report. MICROLOG 93-07692 1 fiche

Submission of the Province of New Brunswick to the National Transportation Agency in opposition to Canadian Pacific Limited's application to abandon the mainline from Saint John, N.B. to Sherbrooke, Que. (NTA files T-6120-2 & T-6120-3). MICROLOG 93-06779 1 fiche

National Transportation Agency of Canada. Market Entry and Analysis Branch

Canadian merchant fleet : 1991 annual lists. MICROLOG 93-00412 5 fiche

National University of Misiones (Argentina)

Electricity supply to rural areas of Argentina. MICROLOG 93-04582 2 fiche
